FOR

Consultant to amend existing Programs of

Maldives Polytechnic

(IUL)213-HR/213/2023/52

1. Background

Maldives Polytechnic is the leading Technical and Vocational Education Provider in Maldives. Our aim is to pump qualified and skilled students to the Technical and Vocational Industry to boost the economy.

Hence, numerous reviews identify the imbalance between current curriculum and labor market need in accordance with development of industries. Therefore, Maldives Polytechnic takes initiative to review the curriculum of Certificate III and Certificate IV programs in multiple disciplines, in general aim of enhancing quality of training programs it provides and supply sound workforce to the industries.

The project comprises on following two components.

Component 1: **Identify the gap between current curriculum and industrial needs:**

1.1: Labor-market assessment and analysis for demand driven skills identification

1.2: Review of technical skill development to achieve entrepreneurship outcome in the development of economy.

Component 2: **Amend on campus and eLearning curriculum align with industrial needs:**

2.1: Conduct a technical review of the curriculums with the technical team of the Polytechnic, in order to add new teaching objectives.

2.2: Amend the curriculums with teaching guidelines following the outlines provided by the faculties in line with industrial needs.

2.3: Develop assessment tools to evaluate students` progress to enhance their learning outcomes.

2.4: Train lectures on all amended curriculums (syllabus, teaching content and evaluation tools) appropriate the proposes target

2. Objectives

Objectives for the amendment of curriculums are;

- To cater the needs of industries.
