

100 Football pitch Project

Football Ground: R. Rasgetheemu
Site visit report – supporting information

Date of visit	9th April 2023	
Site address	R. Rasgetheemu (Island)	
Weather Condition during site visit	Hot dry and sunny	
Officials present during site visit	Council President: Council representatives and former Council President	
Local Contact details	Island:	R. Rasgetheem
	Contact name:	Mr. Ibrahim Mohamed
	Designation	Council president
	Address:	
	Tel:	
	e-mail	
	Fax:	

Scope of the Project	Design and construction of full-size football Artificial turf pitch (Subbase)				
	Category of pitch requirement	FIFA Recommended			
	Level of competition and activities & requirement	National Level			
Proposed usage	Level of play	National Level			
	Intensity of paly per week / year	+/- 36 hrs. /week			
Field orientation	North / South				
Proposed filed dimensions 					
		Length		Width	
	Field size	105m		68m	
	Run – off area	North	South	West	East
		3m	3m	2.5m	2.5m
	Total Green area (synthetic)	111m x 73m			
Spectator Area	No spectator				
Fencing	No build boundary wall, no fence				

Ground Conditions: Proposed site is in the Northwest side of the island; 1 trial holes were made. Proposed site is the existing football ground, Noticed the ground level is in the same but slightly higher on West side of the plot, mostly covered with grass around the existing ground, in the middle area partly cleared, near the perimeter heavily grown grass small trees on the part if new ground to be extended West, West side is covered with trees and bush. must be removed, level and compact to create subbase ready for installation

Groundwater evidence	Location is in the Northwest of the island, according to the representatives on site water is likely more than 3 feet deep, no water found in any trial holes
----------------------	---

Topography	Existing football ground, surface with mostly covered with heavily grown grass, generally a football pitch size area is flat
------------	--

Drain Outlet	Drainage is designed with enough soak pits due to the size of the area.
--------------	---

Existing Service & sports lighting	No Existing building, Futsal pitch located north of the plot with some lights.
------------------------------------	--

Disposal of Spoil	All removed spoil sand disposal must be finalized with a consent from local council.
-------------------	--

Construction Detail: Orientation and footprint must be laid in coordination with council and it's vision to further develop the facility.		
Site access	distance not far from the harbor to the Proposed site, but existing old structures may cause some degree of difficulty, but the road is accessible,	
Site Compound	It's located Northwest of the island, existing football pitch with heavy grown grass on the sides, no infrastructure on site	
Best time of the year to construct	No significant time of the year	
Working restriction	No	
Drainage	base on design and drawings provided,	
Provision for new functional extension	Plot of land allocated is without boundary wall, orientation of the pitch and footprint must be laid in a way space is best utilized.	
Maintenance equipment requirement	TBC	
Sports equipment	TBC	

Other Consideration

- Possible work restriction on transportation of heavy vehicles
- Orientation must be changed to best utilize the space for further development of the facility, size of the plot is not very large.
- Easy access to the facility for vehicles (Ambulance)
- Potential outlet for field drainage connecting to local sewerage system
- Possible shift to west to create space may cause site clearance.

PPROPOSED INDICATIVE LAYOUT

Due North existing futsal pitch

Due south an existing building (not very large)

Site clearance including removal of trees Not to large.
