**IMPORTANT:**

1) Given in the sheet are the functionalities and features to be in the submitting solutions. Should there be a feature limited to a specific brand, an alternative solution may be provided and mentioned in the vendor comments column, to avoid being disqualified from the bid.

2) All proposals must include a fully filled checklist sheet. A dash (-) must be written, in **Vendor Comment** column, should there be no comments to be made. In the **Compliance (YES/NO)** column, no field should be left unattended.

Firewall Appliance for our Branch Office Billorijehige

#	Requirement	Vendor Comment	Compliance (YES/NO)
1	Firewall Throughput must be more than 5 Gbps		
2	Recommended for 100-200 User Network		
3	Threat Protection Throughput: 1.2 Gbps		
4	Concurrent Sessions: 2,000,000		
5	The VPN AES 128 throughput should be more than 900 Mbps		
6	Should Support Leased Line Connection and Fiber broadband Connection		
7	It Should be compatible with our existing Fortinet Firewall		
8	Encryption of data shared between the appliance at the main office and the branch appliance		
9	3 Year 24x7 / Unified Threat Protection (UTP) { Antivirus / Anti-malware/ Intrusion Prevention/ Virtual Private		

	Networking (VPN)/ Web Filtering/ Data Loss Prevention (DLP)}		
10	Vendor must be an authorized partner or reseller or distributor for the product they propose		

## Delivery, Installation and Configuration

#	Requirement	Vendor Comment	Compliance (YES/NO)
1	Delivery: Maximum 30 days upon signing the agreement		
2	Installation: Maximum 10 working days from the date of supply		
3	Should configure mainly as per the rules set in the existing firewall solution at our work network		
4	Should be installed and configured by Certified Engineers employed at the company. (Please attach Certificates, National ID/Work Visa)		
5	Installation engineers should be onsite for the duration of the configuration and migration		
6	Rack mounting and cabling		
7	Update appliances to latest stable firmware		
8	Configure application control policies		
9	Configure AV and Web filtering policies		
10	Configure antispam policies		
11	Configure IPS policies		
12	Configure Malware protection policies		

13	Network segregation and routing configuration		
14	Configure traffic shaping and ISP WAN load balancing		
15	Configure remote access connectivity policies		
16	Firewall monitoring, logging and alert configuration		
17	Creation of configuration documentation		

Note: Bidder should submit authorization letter from the Vender
