Information Sheet for Procurement of 250 kW Generator Set

S/N:	Description	Unit	Qty
1		1	No
	250 kW prime rated diesel generator set with parameters 0.8 P.F, 415 Volts, 3		
	Phase, 4 wires, 50 Hz at 1500 r.p.m powered by Cummins Engine coupled		
	with Stamford Alternator.		
	The Generator set shall be powered by Cummins Engine (engine origin :UK, USA)		
	The engine must produce a mechanical power output (kW_m) which should meet the required electric power (kW_e) of 250kW and must be coupled with a 250kW Alternator. Alternator should be Stamford brand.		
	The generator set must be manufactured or assembled by Cummins or a Cummin's Licenced OEM manufactured/assembler. Certificate of Authenticity must be produced by the Supplier.		
	Engine to be complete with following auxilliary items :		
	Heavy electrical flywheel		
	SAE flywheel housing		
	Air filters, Lubricating Oil Filters, Fuel Filters and all other such filter required for operation of the engine		
	Low lubricating oil pressure switch		
	High engine temperature switch		
	• lub oil sender		
	Water Temperature Sender		
	All necessary items to run and to protect the engine		
	Starting equipment fitted to engine, consisting of:		
	■ 24 Volt charging altenator (Brushless)		
	■ 24 Volt starting motor		
	■ Fuel Shut-off solenoid		
	 Heavy duty lead acid batteries, supplied in a dry charged condition 		
	Governing System		
	The engine to be fitted with a close tolerance Electronic Governing system, which should include efc, actuators, magnetic pickups, etc, including wiring		
	Cooling Equipment		

وسرا مارو برموش وج ع ا دور برده

ı		i	ريمروع
	Cooling equipment compromising a heavy-duty tropical radiator, together with pusher type cooling fan and guards to be fitted. The radiator core should be elecroplated with silver solder tin plated to prevent early failure due to corrosion. Coupon plated radiators are acceptable. Radiator has to be mounted on vibration mounts with enough strength to withstand the radiator and vibrations. Radiator must be designed to adequately cool the generator at an ambient		·
	temperature of 50ºC		
	• Exhaust system		
	450 mm of stainless steel bellow type flexible exhaust, together with suitable flanges and fittings shall be supplied for each silencer.		
	Alternator		
	The alternator shall be brushless revolving type altenator, having class H insulation on both the stator and field windings. It shall be built and rated to BS 5000, tropically impregnated with voltage regulation being in the order of +/- 1.5% from no load to full load under the steady state conditions assuming a speed variation not exceeding 4% on the engine. Anti-Condensation Coil to be fitted in the Alternator.		
	Generator arrangement and drive		
	The simplex type base plate is of heavy duty rolled steel constructed, bolted and electrically welded, drilled on the underside to allow the fitting of foundation bolts. The engine and the alternator are to be mounted on a base plate and vibration mounts to be mounted underside of the base plate. The vibration mounts are to be supplied as loose item.		
	• Finishing		
	After assembling the genset zinc coated self-etching primer should be applied to the complete set.		
1.2	Fuel system	1	No
	A fuel day tank of 12 hours capacity complete with level indicator, drain plug, filler, fuel return with fuel outlet connections and a fuel filter fitted with outlet connection is to be mounted. These mounts are are to be suuplied as loose item. All necessary fittings to be supplied in conformity with fuel flow diagram.		
1.3	Factory testing	1	No
	The generator should be fully tested at the manufacturer workshop in the presence of client/apointees to check the ratings, overload, functional tests on a dummy load prior to dispatch <i>in case the bidder is unable to provide factory test</i> as required the bidder shall provide an extended warranty of one extra year than mentioned in item no 1.6 of this document.		
1.4	Literature and drawings consisting of :	1	Lot
	 1 No x Manual on How to handle the generation equipment 		
	1 Nos x Electrical wiring diagram		

وسرا المعروب موسر وجع ع ووربرده

			زدق
	1 No x Engine parts catalogue		
	1 No x Generator parts catalogue		
	1 No x Generator operation and maintenace manual		
	1 No x Generator AVR manual		
	1 No x Governor control unit manual		
	1 No x Engine shop manual		
1.5	Accessories		
	The Components shall meet the British Standard and ISO standards. Items		
	are for the above mentioned generator sets.		
1.5.1	Primary silencer barrel (to match engine exhaust)	1	No
1.5.2	Secondary silencer barrel (to match engine exhaust)	1	No
1.5.3	3m Exhaust pipe dia (to match engine exhaust)	2	No
1.5.4	Elbows having dia (to match the engine exhaust)	6	No
1.5.5	Flanges having dia (to match the engine exhaust)	4	No
1.5.6	Bolts, Nuts and Washers for the Flanges. (Each set shall include 1 bolt, 2	4	
	washers,1spring washer 2 Nuts)	1	Lot
1.5.7	Split type rockwool insulation lagging suitable for 75 to 125mm dia.		
	Exhaust pipes. The lagging shall be covered with High Quality Aluminium foil.	1	Lot
1.6	Warranty		
	Generator set should carry a warranty of one year from the date of	1	Lot
	commisioning	_	LOT

Bid Information

Quotation shall indicate the following;

a) Price

- o The bidder shall quote for door-step delivery to Male', capital of Maldives.
- o All items shall be quoted in the bid.
- Quotation shall indicate the unit price, total price for each item and total price of the quotation. The quotation shall separately indicate additional charges such as freight charges, insurance, taxes, etc.

b) Delivery Period

- o The delivery period shall be stated in 'calendar days'.
- o If the delivery period indicates 'ex-stock', or if the duration is not specified, it shall be taken same as the party offering the longest delivery period.

c) Payment Terms

- The payment terms shall be stated in 'days or months', and the payments will be released in equal monthly instalments.
- No points will be given for payment terms if the bidder requests for Letter of Credit (LC).
- A maximum of 15% of the entire project can be provided as an advance if requested in the bid, however, it cannot be tied to the project starting date.

d) Technical Specifications

- o All the relevant information including the brand shall be given to enable technical evaluation of the items quoted.
- o Generator set should comply our requirements, if not the bid will be rejected
- o The documents required for technical evaluation are:
 - Technical data sheets of engine and the alternator
 - Datasheets specifying cooling system rated at ambient temperature 50°C
 - Certificate of authenticity specifying assembler is a Cummins OEM

ۇسرى ئامرۇنلىشىن ورخ؛ برۇرىرى

e) Quotation validity should be a minimum of 60 days from the date of quotation opening.

Note: It is in FENAKA Corporation Limited's discretion to reject/cancel any quotation which does not fulfil or comply the above terms.

Required Documents

- Quotation (inclusive of the delivery period and the payment terms)
- Technical specification of the offered product
- Certificate of authenticity
- Details of the company
 - o Company profile
 - o Company registration certificate
 - o GST registration certificate
 - o Contact details

Bids lacking the documents above are subjected to fail.

Evaluation Criteria

- **Proposal Cost**: 50 points
 - o (Lowest proposed price / proposed price) x 50 points
- **Delivery:** 30 Point
 - o (Shortest Delivery Period) / (Quoted Delivery Period) x 30
- Certificate of Authenticity (for the mentioned goods): 10 Point
 - o A copy of the original certificate can be submitted along with Proposal, however the original certificate should be submitted upon signing of the Agreement
- Payment Terms: 10 points for the maximum days given for payment
 - o (Proposed credit period / longest credit period) x 10

Please submit your bids by 09th January 2019, Wednesday on or before 11:00 hrs. (Maldivian time), addressed to: time), addressed to;
