REQUEST FOR PROPOSALS ON

ICT Management Consultancy Service (System and Network Administrator) to support operations of the Ministry of Transport and Civil Aviation

Reference number: (IUL)472-ADM/472/2024/7

Date: 1st February 2024

SECTION 1

1. INTRODUCTION

Due to Decentralization Act 7/2010 (Section 75), states that the revenue earned from various fees, the beneficiary must be the Island or the Atoll council. To implement this, the previous practices of the fees being charged for various registration and license fees in respect of Sea and Land Transportation now must be benefitted to the relevant Atoll or the Island Council. Administering this fee via Ministry of Transport and Civil Aviation in transferring to City, Atoll and Island council requires a sophisticated software to be designed, developed and implemented. The Ministry of Transport and Civil Aviation being the leading agency in arranging this fee transfer that are relevant to Atoll and Island council is now in the software implementation stage.

2. HIRING OFFICE

Ministry of Transport and Civil Aviation (MoTCA)

3. PURPOSE OF CONSULTANCY SERVICE

Ministry of Transport and Civil Aviation is seeking well-qualified and experienced ICT and Management Consultancy service provider to work closely and assist the in-house IT section as System and Network Administrator. The Systems and Network Administrator is responsible for the design, implementation, and maintenance of the organization's computer systems and network infrastructure. This includes ensuring the availability, performance, and security of all systems and networks, as well as implementing and maintaining backups and disaster recovery plans. The Systems and Network Administrator also works closely with other IT staff to troubleshoot and resolve issues related to systems and networks.

SCOPE OF WORK (Description of services, activities, or outputs)

Scope and diversity of assignment:

Note: The Consultancy Service Provider should ensure the following scope of work is fulfilled.

System and Network Infrastructure:

- Design, implement, and maintain the organization's computer systems and network infrastructure.
- Ensure the availability, performance, and security of all systems and networks.
- Troubleshoot and resolve issues related to systems and networks.
- Work closely with other IT staff to identify and resolve problems.
- Stay current with new technologies and best practices related to systems and networks.
- Install, configure, and maintain Linux and windows servers.
- Monitor server performance and troubleshoot issues.

Backup and Disaster Recovery:

- Develop and maintain backup solutions for data and systems.
- Create and regularly update disaster recovery plans.

Data Migration:

- Plan and execute data migration projects efficiently.
- Database handling & extract data from database.

Docker Management:

- Deploy, manage, and monitor Docker containers.
- Ensure the scalability and reliability of Docker environments.
- Troubleshoot container-related issues and optimize Docker configurations.

Web Server Administration (Linux):

- Configure and maintain web servers (e.g., Apache, Nginx).
- Monitor and optimize web server performance.

Web Application Firewall (WAF):

- Implement and manage a Web Application Firewall.
- Monitor and respond to security incidents.
- Stay updated on the latest web application security trends and best practices.

TIME FRAME

Two year (Renewable contract based on performance).

4. WORK HOURS

Working hours in Ministry of Transport and Civil Aviation in Hulhumale shall be Sunday to Thursday excluding the Government holidays. Between 08:00-18:00, consultant shall work at least 5 hours stationed physically in the office and rest consultant can work remotely.
