1. معلومات

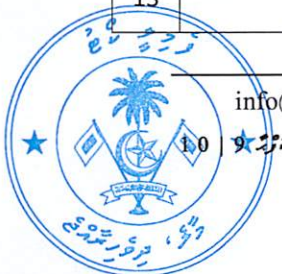

معلومات عامة عن المنتج: يُطلب من المتقدمين تقديم مواصفات 2 (تقريباً) للخدمة (معلومات إضافية عن الخدمة) في الجدول أدناه.

معلومات إضافية مطلوبة

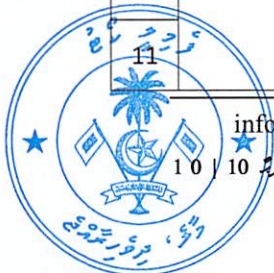

يجب أن تكون مواصفات المنتج المقدمة في الجدول 2 متوافقة مع المواصفات الواردة في الجدول أعلاه. يجب أن تكون مواصفات المنتج المقدمة في الجدول 2 متوافقة مع المواصفات الواردة في الجدول أعلاه. يجب أن تكون مواصفات المنتج المقدمة في الجدول 2 متوافقة مع المواصفات الواردة في الجدول أعلاه.

Servers (with license) Qty -2

No	Item Name	Detailed Minimum Required Specification	Comply (Yes/No)
1	Server x 2		
1	Brand	Proposed Server product vender should be listed in the Gartner's magic quadrant (leaders' section) in the relevant technology field.	
2	Model	To be mentioned by the bidder	
3	Country of origin	To be mentioned by the bidder	
4	Manufacturing Country	To be mentioned by the bidder	
5	Form Factor	1U Rack Mount	
6	Processor	Dual Intel Xeon Gold 5418N	
7	RAM	128 GB RDIMM, 4800MT/s Dual Rank	
8	RAID Controller	Dedicated RAID Controller With 2GB Cache	
9	SSD	2 x 480 SSD 2.5" Hot-Plug	
10	Power Supply	Dual Fully Redundent(1+1) Hot-Plug Power Supply	
11	Network	Dual Port 10/25Gbe SFP28(with SFP Module) Should included 25G & 10G SFPs	
12	HBA 16G FC SAN	2 x Single Port 16Gbps FC PCI-E Card (with SFP)	
13	Remote Management	Remote Management with Virtual Console	

14	Rack Rails	ReadyRails Sliding Rails With Cable Management Arm		
15	Manufacturer authorization	Manufacturer authorization letter should be provided.		
16	Warranty	Minimum 3 Years Parts / 3 Years Service		
17	Installation, testing and commissioning	Installation, testing and commissioning with necessary accessories		
2 Server and System Software Licenses				
1	Licenses	04 Nos x Datacenter Virtualization Solution (DCS / Fusion Compute) virtualization suite Advanced license with 1 year support		
2		2 Nos x Genuine Windows Server 2022 Standard - 16 Core License		
3		Must include if any license need (renewal price of license must be mention is there is any license)		
4		Installation, Configuration, Documentation and Training		
3 Setup				
1	Microsoft Windows Domain Controller Installation and Configuration	Define the objectives and requirements for Windows Server installation.		
2		Define roles and responsibilities for server administration within the Microsoft Windows environment		
3		Create a detailed project plan outlining key milestones, timelines, and dependencies		
4		Establish a point of contact for ongoing support needs.		
5		Microsoft Windows Domain Controller Installation and Configuration		
6		Microsoft File Server Installation and Configuration		
7		Microsoft Windows Server VMs Configuration for other Operational Servers		
8		Installation Verification Tests and Training		
9		Installation, testing and commissioning	Setup virtualization environment and cluster	
10			SAN Configuration and Connect to Servers by FC channel with necessary accessories	
11		Migration Assistance support should be provided if needed		

12		Installation, testing and commissioning with necessary accessories	
13	Labeling	Equipment have to be labeled with a laminated label printer	
14		Cables have to be labeled with a laminated label printer from both Ends	
9	Documentation		
1	Documentation	Document the installation and configuration processes, including settings and configurations for future reference	
2		Provide detailed user manuals and guides for administrators.	
3		Provide detailed user manuals and guides for End-User if need	
4		Provide guidance on routine maintenance tasks, updates, and system upgrades.	
5		Provide detailed Network Diagram	
6		Provide detailed Network Rack Diagram	
7		Establish a point of contact for ongoing support needs.	
9	Training and Support		
1	Training Sessions	Conduct training sessions for the client's IT team on the day-to-day management and troubleshooting	
2		Provide on-the-job training for support and maintenance processes related to the implemented solution.	
3	Support	on-site attendance for hardware repair	
4		Technical support assistance for remote problem diagnosis	
5		Proactive notification for important product updates and issues	
6		3-Year Local Technical Support by certified engineers	
7		3-Year hardware and software support
