

## Job Opportunity

<b>Post</b>	UX/UI Designer - Consultant	<b>Reference</b>	Tradenet-HR/J/2024/17
<b>No of positions</b>	01		
<b>Employment Type</b>	Consultant		
<b>Duration</b>	The Duration of the assignment is 6 months from the commencement of work. Contract may be extended another 6 months based on the requirement.		
<b>Remuneration</b>	Based on qualification and experience		
<b>Scope of Work</b>	We are looking for a talented UX/UI Designer to join our team at Tradenet. As part of our dynamic and innovative team, you will be responsible for designing intuitive, user-centric interfaces for a range of applications that streamline government services and enhance public sector interactions. Your designs will play a crucial role in delivering seamless digital experiences to citizens and businesses, ensuring that our applications are functional, visually appealing, and easy to use.		
<b>Roles and Responsibilities</b>	<ul style="list-style-type: none"><li>• Lead the design of user-centered experiences that meet both business and user needs.</li><li>• Perform usability testing to refine and validate designs based on user feedback.</li><li>• Design intuitive and visually appealing interfaces that enhance the usability and user experience of Tradenet's platforms.</li><li>• Design high-fidelity mockups and interactive prototypes for desktop, mobile, and tablet platforms.</li><li>• Ensure accessibility compliance, ensuring designs accommodate a wide range of users, including those with special needs.</li></ul>		
<b>Collaboration and Communication</b>	<ul style="list-style-type: none"><li>• Work closely with developers, product managers, and stakeholders to ensure the implementation of designs aligns with the overall vision and project goals.</li><li>• Present design ideas and rationale to key stakeholders, explaining decisions with clear references to user insights and best practices.</li><li>• Iterate on designs based on feedback from the team, clients, and end-users, ensuring continuous improvement throughout the development cycle.</li></ul>		
<b>Documentation and Knowledge Sharing</b>	<ul style="list-style-type: none"><li>• Develop and maintain design documentation, including user flows, wireframes, prototypes, and final design specifications.</li><li>• Provide developers with all necessary design assets (icons, fonts, colors, etc.) and ensure smooth handoffs between design and development teams.</li></ul>		
<b>Qualification &amp; Experience</b>	<ul style="list-style-type: none"><li>• Minimum of 3 years of hands-on experience in UX/UI design, preferably working on large-scale applications or public-facing digital products.</li><li>• Bachelor's degree in a related field is preferred but optional. Equivalent professional experience is essential.</li></ul>		
<b>Technical Skills</b>	<ul style="list-style-type: none"><li>• Proficiency in industry-standard design tools such as Figma, Framer, Adobe XD, Adobe Creative Suite (Illustrator, Photoshop), or similar software.</li><li>• Understanding of front-end technologies (HTML, CSS, JavaScript) to facilitate collaboration with developers will be a plus.</li><li>• Experience with creating wireframes, prototypes, and user flows using tools like Figma, Framer, or similar.</li></ul>		

<b>Professional Skills</b>	<ul style="list-style-type: none"><li>● Strong communication and presentation skills, with the ability to clearly articulate design concepts and decisions to various stakeholders.</li><li>● Ability to work independently and manage multiple projects simultaneously in a fast-paced environment.</li><li>● Strong attention to detail, with a keen eye for aesthetics and visual consistency.</li></ul>
