

Job Title:	Infrastructure & Network Manager	Work Location:	Greater Malé Region
Division:	Technology	Employment Type:	1 Month Contract
Deadline:	18th June 2026, before 4:00 PM		

Key Responsibilities

- Oversee the comprehensive management, security, and physical inspection of the corporate switching, routing, wireless, and firewall infrastructure.
- Maintain accurate logical and physical network topologies, IP addressing schemes, VLAN configurations, and traffic segmentation policies.
- Ensure the high availability and performance of physical and virtual server infrastructure, storage architecture, and critical business applications.
- Implement routine maintenance schedules, firmware patch management guidelines, and configuration backup procedures for all network and server devices.
- Regularly audit firewall rule sets and security policies to mitigate single points of failure and protect sensitive supply chain data.
- Manage robust backup and disaster recovery infrastructure, ensuring routine verification of backup job completion and restore testing.
- Monitor server room physical environments—including power, cooling, and access control—and manage all production systems nearing end-of-life or end-of-support.
- Execute structured incident response runbooks to efficiently resolve network and server failures while minimizing operational service disruptions.

Minimum Qualifications and Experience

- Master’s Degree (MQA Level 9) in Information Technology, Computer Science, Information Systems, Network Engineering, or a related discipline, with a minimum of one (1) to two (2) years of relevant professional experience;
OR
- Bachelor’s Degree (MQA Level 7 or 8) in Information Technology, Computer Science, Information Systems, Network Engineering, or a related discipline, with a minimum of three (3) to five (5) years of relevant professional experience.
- Demonstrated experience managing infrastructure and network operations, ensuring high availability, performance, security, incident management, vendor coordination, and business continuity/disaster recovery support.

Salary & Benefits

- Remuneration of MVR 15,000 for duration of contract.
