3 -

مواصفات/أدوات/معدات/مكونات

3.1 Drip Irrigation Pipes

- Supply of **750 metres** of UV-resistant HDPE drip irrigation pipe.
- Pipe diameter: 16 mm (or equivalent)
- Factory-installed emitters.
- Pressure rating suitable for agricultural irrigation.

3.2 Main Supply Pipeline

Supply HDPE pressure pipe including all necessary fittings.

Minimum requirements:

- Diameter: 25–32 mm
- PN6 or higher
- UV resistant

3.3 Drip Laterals and Emitters

Supply complete drip laterals including:

- Pressure compensated emitters
- Uniform discharge
- Suitable spacing for vegetable cultivation

3.4 Control Valves

Supply all valves required for system operation including:

- Isolation valves
- Ball valves
- Flush valves where required

3.5 Pipe Connectors and Accessories

Supply all accessories required for complete installation, including but not limited to:

- Elbows
- Tees
- Couplers
- Reducers
- End caps
- Adaptors
- Joiners
- Grommets

- Lock fittings
- Clamps

4. Technical Specifications

All supplied materials shall meet the following minimum specifications:

Item	Minimum Requirement
Drip Pipe	UV Stabilized HDPE
Pipe Diameter	16 mm
Main Line	HDPE PN6 or higher
Working Pressure	1–4 bar
Emitters	Factory Installed
Emitter Flow Rate	2–4 L/hr
Fittings	Heavy-duty polypropylene or equivalent
Valves	Agricultural grade
Colour	Black UV resistant

Equivalent or higher-quality products may be offered.

5. Quantity Schedule

Item	Unit	Quantity
Drip Irrigation Pipe	m	750 (or 1,000 if specified)
Main HDPE Supply Pipe	m	As required
Drip Laterals	Lot	1
Emitters	Lot	Included
Control Valves	Lot	1
Pipe Connectors	Lot	1
Accessories	Lot	1

Suppliers shall provide sufficient fittings and accessories for a complete working system.
