

[illegible]

Figure 1. The structure of the proposed model. The model is divided into three main sections: **Input**, **Hidden**, and **Output**. The **Input** section includes $x_1, x_2, \dots, x_n$ and $z_1, z_2, \dots, z_m$. The **Hidden** section includes $h_1, h_2, \dots, h_k$ and $g_1, g_2, \dots, g_l$. The **Output** section includes $y_1, y_2, \dots, y_p$ and $v_1, v_2, \dots, v_q$. The model is represented by a series of interconnected nodes and arrows, showing the flow of information from input to hidden to output layers.
