15	Touchup paint	

ANNEX 4

Scope for servicing portable & wheeled trolley fire extinguishers

Title	Portable/wheeled trolley extinguisher service
Owner	Fuel Supplies Maldives

Objective

The objective of the annual inspection, examination, and services, including maintenance, testing, cleaning, painting, hydrostatic testing, pressurizing, and recharging, is to ensure that all portable and wheeled fire extinguishers are safe, functional, properly maintained, compliant with applicable requirements, and ready for immediate use in the event of a fire.

#	Scope Details
1	The contractor should collect the extinguishers from Fuel Supplies Maldives, and both parties must ensure they sign the relevant documents throughout the goods issuance and delivery cycle.
2	The contractor must provide an estimate or quotation after inspecting/examining the extinguishers to be serviced to speed up the PO processing.
3	The contractor must refer to the client's goods issue form reference number on the estimate or quotation, as well as the delivery note for the extinguishers being serviced.
3	The contractor must specify the rejection reason on the delivery note if any extinguisher is rejected for defects.
4	Both the contractor and client must ensure they complete all relevant documents with signatures, names, contact numbers, and, if applicable, staff office ID during goods issuing and delivery.
5	Interested parties should provide a clear breakdown of service rates in MVR as per the service sheet.
6	The contractor or the service provider should ensure that each extinguisher/trolley is returned to a safe, functional & ready-for-use condition, subject to applicable standards & regulatory requirements.
7	Under contract, the contractor or the service provider must provide servicing of portable/wheeled trolley extinguishers at various company locations in the country, including Fuel sheds, fuel skids, bulk tank storage areas, fuel bowzers, Warehouse/godowns, workshops and garages, Boatyard, fueling facilities, Oil barges, and offices and other operational facilities.
8	During emergency service, if needed, the contractor or service provider should provide emergency support for discharged, damaged, or urgently required extinguishers, and for fire incidents requiring immediate replacement of fire extinguishers.
