Section 5

Details of services/materials/work required

Introduction and Background The Government of the Republic of Maldives, through the Ministry Climate Change, Environment and Energy is seeking proposals from qualified and experienced event organizers to conceptualize, plan, coordinate and set up a Public Engagement Event, to mark the 10th Anniversary of Kigali Amendment to the Montreal Protocol Convention and to celebrate the International Day for the Preservation of the Ozone Layer 2026. This milestone event will be organized by the National Ozone Unit, which is actively engaged in implementing a range of donor-funded projects and initiatives aimed at fulfilling the country's obligations under the Montreal Protocol on Substances that Deplete the Ozone Layer. Demonstrating the country's commitment for the environmental protection under this protocol, the Maldives has successfully phased out major ODS, including Chlorofluorocarbons (CFCs) and Hydrochlorofluorocarbons (HCFCs), achieving a complete HCFC phase-out by 2020, a full decade ahead of the target schedule.
Objective The main objective of this assignment is to organize a dynamic public engagement (4 pm – 10 pm) event focused on raising awareness about the importance of the ozone layer and a celebration of the 10th Anniversary of the Kigali Amendment to the Montreal Protocol. Designed as an evening community festival, the event will offer a gamified fun, learning experience about the ozone layer for children and adults with food and drink stalls. A ceremonial opening will mark the start of the event. The event organizer must work closely with the National Ozone Unit (NOU) to ensure effective preparation, management and execution of the event in accordance with the defined scope of work. The selected event organizer will be responsible for the following tasks: 1. Design and assembly of Entrance 2. Design and assembly of feature wall with timeline of achievements and Cooling Pledge Wall. 3. Develop, design assembly and management of the Kids Games and Play Area 4. Design and Assembly of Food Stall Area (10 stalls) 5. Design and Assembly of Information Stall Area (5 stalls) 6. Design and Install Light and Sound System required for all areas 7. Design and Distribution of Marketing Materials

8. Arrange Event Host/MC
9. Obtain and place 2 water coolers at strategic and easily accessible locations
10. Post Event Clean-up and Venue Restoration
11. Video Coverage of the Event

Scope of Assignment

The Event Organizer will be responsible for the complete implementation of all components listed below, ensuring proper staffing, logistics, supervision, coordination, safety, and delivery of services and materials for the public engagement event for 2026 World Ozone Day.

Event Date and Time

The event organizer will be responsible for planning and executing all aspects of the event mentioned below and must ensure that all arrangements are completed in a timely manner to allow the event to commence as scheduled:

Date: 30th September 2025 (Wednesday) *(or an alternative date may be specified by the NOU)*

Time: 4 pm – 10 pm (tentative)

Location: Hulhumale Central Park *(or an alternative location as may be specified by the NOU)*

1. General Event Decoration

Create an engaging and thematic ambiance that reflects the 2026 World Ozone Day International theme: "Global action for a cooler planet", marking ten years since the adoption of the Kigali Amendment, which drives the global phase-down of hydrofluorocarbons (HFCs) and accelerates the shift toward more efficient, sustainable cooling.

The overall decoration should visually represent environmental and ozone-related motifs, creating a vibrant, welcoming environment across all event areas.

2. Timeline Wall Installation

As a signature centerpiece marking the 10th Anniversary milestone, the Event Organizer shall design and install a Timeline Wall Installation at the entrance/main area: a large-format, photo-worthy visual display charting key milestones from the adoption of the Kigali Amendment in 2016 through to 2026, including the Maldives' HCFC phase-out achievement, highlighting progress on energy

efficiency and climate change action. The installation should be designed to serve as a backdrop for attendee photographs.

3. Cooling Pledge Wall

The Event Organizer shall also design and install a Cooling Pledge Wall where attendees can publicly commit to actions supporting cooling and energy efficiency. The pledge wall should visually build up over the course of the event, becoming a full and engaging display by the end of the evening.

Annex A provides a sample for reference. The Event Organizer may use this as guidance but is encouraged to propose their own creative and innovative approach to meet the event objectives.

4. Main Areas

Area 1 - Entrance

Area 2 – Food Stalls and Information Stalls

Area 3 – Kids Games and Play Area

The event organizer will be responsible for:

- Design and install a visually impactful entrance that aligns with the overall event theme and branding at the entrance of Central Park.
- Designing and setting up a simple yet immersive environment that transforms the venue and provides attendees with the feeling of being part of a special, purpose-driven event. The event organizer is free to utilize lights, visual elements, and decorations to create a fun and meaningful atmosphere that reinforces the themes of ozone protection and climate-friendly living.
- Development, design, and assembly of the kids game and play zone. The event organizers will need to provide adequate staff to oversee and guide the kids in the kids zone.
- Complete setup and installation of decorations at the venue accordingly to the timeline.
- Ensuring that all decor elements are environmentally friendly, sustainable, safe, weather appropriate, and securely installed.
- Coordinating with NOU on any design adaptations required due to space, weather, or logistical constraints.
- All materials, labour, equipment, and logistical support required for setup and dismantling.
- Printing of all content/ banners for the expo area that have to be in a coherent theme. The NOU will provide the content
- To provide one video covering the event – a short 1 – 3 minute video covering the event.

5. Kids Game and Play Area

The goal is to create an interactive kids play zone that delivers a fun, hands-on learning experience about ozone layer protection. The NOU will provide the core content and learning outcomes; the Event Organizer shall be responsible for developing this content into an interactive, gamified experience, such that children playing the game are, in the process, learning about the protection of the ozone layer.

All games developed for this event shall be the intellectual property of the Ministry only, and may not be used, reproduced, or repurposed by any other party for any other purpose.

In addition to the ozone-themed game developed above, the play area shall include the following interactive attractions (6 in total):

- 1 gamified ozone experience
- 2 bouncy castles
- 3 game stations

The Event Organizer shall design and assemble the play area and ensure it is adequately staffed at all times to:

- Communicate game guidelines and rules to children and their parents/guardians
- Ensure the safety of children throughout the event
- Ensure supervisors shall always be present at the play area.

The Event Organizer shall also be responsible for:

- All materials, labour, equipment, and logistical support required for setup and dismantling of the play area
- Printing of all content/banners for the kids games and play area, ensuring a coherent theme across all materials
- Fabrication of all physical game components
- Coordination with the NOU throughout the design, development, and delivery of this component

6. Food and Information Stalls

- Design and assemble 10 food stalls, each with a minimum dimension of 10 x 10 ft.
- Design and assemble 5 Information stalls, each with a minimum dimension of 10 x 10 ft.
- Arrange basic utilities and lighting as required for each stall.
- Ensure an efficient and accessible layout with clear signage and appropriate spacing to allow smooth visitor flow
- Design the layout and produce uniform name and front boards for each stall, ensuring a consistent, professional appearance aligned with the 2026 World Ozone Day theme.
- Plan the layout to ensure efficient use of space, incorporating appropriate decorative elements that complement the event's theme.
- Provide necessary access to utilities, including electricity, water and lighting, for each stall, provided that Ministry arrange the access points with the respective Utility service providers.
- Arrange for proper waste disposal and maintain cleanliness in and around the food stall area throughout the event. Assign one 1 staff member specifically to oversee cleanliness and waste management in this area.

7. The Technical Setup – Electric, Sound and Light

- Supply and install electrical connections to all main event areas, ensuring safe and reliable power distribution throughout the venue. Providing and installing a complete sound system that ensures clear audio coverage across the entire event area.
- Provide all necessary sub-connections and wiring for tents/stalls, the stage, LED screen, lighting installations, and any other designated zones requiring electricity.
- Coordinate with the National Ozone Unit to accommodate any additional power requirements as identified during setup.

The sound system must include and is not limited to:

- Wireless or corded microphones (minimum two units) for speakers and the MC
- Speakers and amplifiers positioned strategically throughout the whole venue for even distribution of sound
- Background music playback capability to be used during transitions or intervals and throughout the event
- The sound system must be tested prior to the start of the event to ensure clarity, audibility, and functionality.

- Design and install appropriate lighting throughout the venue to enhance visibility, highlight key areas, and create an engaging atmosphere in line with the event's theme.
- Ensure that all lighting elements are safe, energy-efficient, and suitable for outdoor/indoor use based on the venue conditions.

Provide focused lighting for specific areas such as the stage, exhibition space, food stalls, and public awareness tents/stalls as required.

- Coordinate the lighting setup to complement the overall design and support both functional and aesthetic needs during the event.
- Assigning one (1) dedicated technical support staff member who will remain on-site throughout the event to Monitor and troubleshoot any sound or visual equipment issues, assist speakers, presenters, or the MC with microphone setup or playback and ensure uninterrupted technical performance across all segments of the event.

8. Layout Plan

Develop a comprehensive layout plan for the event venue, ensuring optimal use of space and a cohesive design throughout.

The layout plan must include the following components:

- **Zoning of Key Activity Areas:** Clearly mark the dimension the placement of all major areas, including Kids games and play area, Information Stalls and Food Stalls and Entry and Exit points.
- **Dimensions:** Provide accurate measurements for each activity area, ensuring adequate spacing for visitor movement, safety, and functionality.
- **Sound System Placement:** Identify ideal locations for speakers and audio control points to ensure even sound distribution across the venue without interference or feedback.
- **Lighting Plan:** Indicate locations for ambient, focused, and decorative lighting, covering: Adequate and matching lighting should be there for the kids play area to make the area attractive and safe and general ambient lighting for walkways and communal areas.
- **Flow and Accessibility:** Ensure the layout supports a smooth and intuitive flow of visitors, with attention to accessibility, safety, and emergency access points.
- The plan must be presented in a clear diagrammatic format with a legend for easy understanding and submitted for review and approval by the National Ozone Unit during the first meeting.

9. Design and Distribution of Marketing Materials

- Design engaging and informative promotional materials to encourage public attendance.

- Distribute and place posters and visuals across Central Park and other strategic areas in Malé, Hulhumalé, and Villingili, one week prior to the event.
- Design visuals and arrange placement of digital advertisements on 3 digital billboards in Malé and 3 digital billboards in Hulhumalé, two weeks prior to the event. Coordinate scheduling and visibility to maximize public outreach with third parties.

10. Post-Event Cleanup

- Responsible for the complete dismantling and removal of all event setups, structures, decorations, and installations.
- Ensure the venue is restored to its original condition, with no leftover materials, waste, or damage.
- Arrange for the proper disposal of waste in an environmentally responsible manner, in compliance with local regulations.
- Conduct a final walkthrough with the designated authority (e.g., venue management or NOU) to confirm the area has been properly cleaned and restored.

11. Overall Safety Protocols

- To ensure the health, safety, and well-being of all attendees, particularly children and families, comprehensive first aid and safety measures must be in place throughout the duration of the event.
- Ensure all electrical wiring, sound systems, light systems and other installations are safely secured and regularly inspected during the event.
- Monitor weather conditions in real-time and inform NOU in the event of rain, high wind, or excessive heat. The event organizer may propose suitable alternatives, such as tented areas, to accommodate such conditions.

Requirements for Experience and Qualifications

Company
