

Works to be done by the contractor:

- To make the detail architectural drawing and structural drawing with structural calculation as per the layout given by FSM, and to get all the necessary approvals from the government.
- After government approval, a full drawing set and soft copy (Autocad file) shall be provided to FSM.
- Contractor shall approve the drawing sets from FSM before submitting to government authorities.
- Contractor shall submit the BOQ for the approved drawing with updated prices and provide client the soft copy of the BOQ.

Detail Drawing must contain:

- Detail drawing for super structure (roof structure)
- Detail drawing for the sales building
- Detail drawing for the concrete pit/tank including fiberglass chamber (details of the fiberglass chamber will be provided by FSM)
- Detail drawing of the dispenser foundation including the dispenser sump (details of the sump will be provided by FSM)
- Pipeline layout diagram including concrete trench.
- Drainage installation
- Electrical wiring, light, switches, and sockets installation.
- IT networks, CCTV layout
- Firefighting installation, sign boards and name board.
- Paving and other finishing details.
