

100 Football pitch Project

Football Ground: S. Maradhoo

Site visit report – supporting information

Date of visit	11 th January 2021	
Site address	S. Maradhoo	
Weather Condition during site visit	Hot dry and sunny	
Officials present during site visit	Youth Associate Aik	
Local Contact details	Island:	S. Maradhoo
	Contact name:	Mr. Faisal
	Designation	TBC
	Address:	
	Tel:	TBC
	e-mail	
	Fax:	

Scope of the Project	Design and construction of full-size football Artificial turf pitch (Sub base)				
	Category of pitch requirement	FIFA Recommended			
	Level of competition and activities & requirement	National Level			
Proposed usage	Level of play	National Level			
	Intensity of paly per week / year	+/- 36 hrs. /week			
Field orientation	North / South				
Proposed filed dimensions					
		Length		Width	
	Field size	105m		68m	
	Run – off area	North	South	West	East
		3m	3m	2.5m	2.5m
	Total Green area (synthetic)	111m x 73m			
Spectator Area	No Structure for spectators but a stage / pavilion exist				
Fencing	Full boundary wall and fence around the perimeter wall, except 40-50m area from N/E side of the plot				

Site Photo

Ground Conditions: Proposed site is located due North / East side of the island;4 trial holes were made. Noticed +/- 300 mm of soil (generally fine and soft) have to be removed and back filled, it was noticed that the plot is slightly lower than existing main road.	
Allocated plot is the current football ground North / East of the island	
Groundwater evidence	Location is North / East of the island, according to the represents on site water is likely more than 3 feet deep. No evidence of water found in the trial holes made (+/- 2ft deep)
Topography	Existing surface is level and cleared, some grass patches near the perimeter wall
Drain Outlet	Connect to Existing sewerage or Sea
Existing Service & sports lighting	Small Pavilion and floodlight installed
Disposal of Spoil	All removed spoil sand disposal must be finalized with a consent from local council.

Construction Detail	
Site access	Proposed site is on North / East of the island, access to the site from all sides except N/E , distance from harbor area may cause some degree of difficulty for transporting materials,
Site Compound	Existing football ground
Best time of the year to construct	No significant time of the year
Working restriction	No working restriction identified
Drainage	Gutter and soak-pit system, The existing land shows layers of sand top layer +/- 300-350mm of soil likely to hold water but will infiltrate water
Provision for new functional extension	No existing plan obtained, potential for commercial development for revenue generation
Maintenance equipment requirement	TBC
Sports equipment	TBC

Other Consideration

- Existing Football ground
- Orientation of the land must be check before laying the footprint (sufficient area to lay the pitch, plot is not isometric in shape)
- Site photos shows the condition of the allocated land
- A drawing or a concept of how the facility to be developed or to be obtained before laying the footprint of the pitch
- Potential outlet for field drainage connecting to local sewerage system
- Power supply to football field should be a direct cable from the power house avoiding interference to public households during an event.

PPROPOSED INDICATIVE LAYOUT

No proposed layout
