**Bid Evaluation Criteria**

Criteria	Percentage
Price	30
Mileage	30
Physical Inspection	40
Total	100%

**Price (30%)**

- A Price must be quoted by the bidder for the vehicle. Failure to do so WILL lead to disqualification of the bid at the evaluation stage.
- In calculating the score under this criterion, the party quoting the lowest Price will get the maximum points allocated under this criterion and the points for the remaining bidders will be distributed on a pro rata basis in descending order.
- In the event where RDC feels that the bid prices are higher or lower than 20% of our estimate/budget, it reserves the right to cancel the Bid/s
- The formula thus used for the computation of the score is as follows:

$$\text{Price Score} = \frac{\text{Lowest proposed total price from among the bids received}}{\text{Particular Bidder's proposed total price}} \times (\% \text{ in Bid Data})$$

**Mileage (30%)**

- A Mileage value must be mentioned by the bidder for the vehicle. Failure to do so WILL lead to disqualification of the bid at the evaluation stage.
- In calculating the score under this criterion, the party quoting the lowest Mileage will get the maximum points allocated under this criterion and the points for the remaining bidders will be distributed on a pro rata basis in descending order.
- The formula used for this is the same as for calculating score for Price, whereas instead of the price value we will be using the values for Mileage provided by bidders
