

# 100 Football pitch Project

**Football Ground GA. Dheevadhoo**  
Site visit report – supporting information.

Date of visit	6 <sup>th</sup> March 2021	
Site address	Dheevadhoo Football Ground	
Weather Condition during site visit	Hot dry and sunny	
Officials present during site visit	Council President, Sports councilor	
Local Contact details	Island:	GA. Dheevadhoo
	Contact name:	Ibrahim Thaufeeq
	Designation	Council President
	Address:	9977918
	Tel:	
	e-mail	
	Fax:	

Scope of the Project	Design and construction of full-size football Artificial turf pitch				
	Category of pitch requirement	FIFA Recommended			
	Level of competition and activities & requirement	National Level			
Proposed usage	Level of play	National Level			
	Intensity of play per week / year	36 hrs /week			
Field orientation	North / South				
Proposed field dimensions					
		Length		Width	
	Field size	100m		64m	
	Run – off area	North	South	West	East
		3m	3m	2.5m	2.5m
	Total Green area (synthetic)	106m x 69m			
Spectator Area	Pavilion with some level of functional rooms				
Fencing	Existing facility/ Structure has full boundary wall and fence				

Site Photo

Ground Conditions: Proposed site is in East of the island; 5 trail holes were made. Noticed +/- 200 mm of rootzone and silt reclaim covered with patches of grass, top layer needs removing of the grass patches and scrap. Backfilling with the sand scrapped	
Groundwater evidence	Location is the heart of the island, according to the represents on site water is likely more than 3 feet deep
Topography	Old surface with patches of grass, with +/- 200mm of rootzone, ground area likely lower than outside
Drain Outlet	No public sewerage pipe or system in place, drainage must be designed with enough soak pits to flush excess water.
Existing Service & sports lighting	Small pavilion with functional rooms and seating space, no flood lights
Disposal of Spoil	All removed spoil sand needs to be removed in accordance with council instruction.

Trial Holes

Construction Detail: Proposed site is not in a regular shape; footprint must be laid to maximize space. Sand use must be maximized	
Site access	Proposed site is accessible from all 4 sides, however distance from harbor will make it easy for the transportation of materials (allocated site is in from of the harbor
Site Compound	It is located on East of the island, no infrastructure from the harbor to the site. Existing pavilion
Best time of the year to construct	No significant time of the year
Working restriction	No
Drainage	Subbase will be designed with gutter and soak pit to drain the excess water.
Provision for new functional extension	Proposed site is smaller for a full pitch project, Existing pavilion maybe extended in the space available on sides.
Maintenance equipment requirement	TBC
Sports equipment	TBC

#### Other Consideration

- No benchmark identified, due to the small size not regular in shape of the plot, for the groundbreaking and defining footprint of the football pitch, a thorough survey is important.
- Provision of extension of the facility
- Power supply or electrical and water outlet available

#### PROPOSED INDICATIVE LAYOUT
