## Systems Specialist – Controls

Facilities Management and Utilities / Property Maintenance

Maldives Airports Company Limited is seeking to recruit a talented and qualified individual to the position of System Specialist – Controls in our Facilities Management and Utilities Department. The successful candidate will be responsible to provide specialist technical leadership on all electronic control systems and assets across the Velana International Airport (VIA).

### Key Responsibilities

- Develop the technical capability of the building maintenance delivery team, by providing technical coaching and delivering on the job training.
- Lead the diagnosis and repair of complex specialized control system asset/system failures.
- Support the development of optimized planned maintenance strategies for all specialized control system assets.
- Monitor the condition of all control system assets across Velana International Airport.
- Support the quality assurance of maintenance integration documentation submitted by construction contractors, including necessary interfaces to existing control systems.
- Ensure all FAS and PAS assets/systems comply with the appropriate local and international fire safety standards.

### Qualification & Experience

- Bachelor's Degree or equivalent qualification in an engineering discipline.
- Worked in operationally challenging environments with a complex stakeholder base.
- Operating Computerized Maintenance Management Systems (CMMS).
- Operational knowledge of Fire Alarm Detection Systems.
- Experience with asset management and safety management systems accredited to ISO55001:2014 and 45001:2018 (Preferred).

### Benefits

- Competitive Salary
- Free motorcycle parking
- Study loan scheme for children
- Health Insurance
- Staff Gym Facilities
- Staff Development Scheme
- Free Transportation
- Staff Loan Scheme
