1. Introduction & Background

The Government of Maldives (GoM) are working to develop and implement Energy Efficiency Standards & Labelling (S&L) programme for high energy consuming electrical appliances under the Strengthening Low Carbon Energy Island Strategies (LCEI) Project. The S&L programme is expected to help consumers identify and base their purchase decisions on lifetime appliances costs as opposed to only upfront costs. This programme is carried out under 4.4; Jazeera Dhirulhun, Clean energy of the Strategic Action Plan 2019 – 2023 of the government of Maldives. It is also in line with Maldives commitments to the Montreal Protocol on Substances that Deplete the Ozone layer.

The LCEI project is designed with a goal of market transformation for energy efficient technologies in buildings and the built environment in the Maldives; and promotion of energy efficiency investments in buildings. The project will not only target energy efficient technologies, but will also promote emerging low carbon energy technologies for the building sector. LCEI Project is funded by the Global Environment Facility (GEF) and implemented by the Ministry of Environment with support from UN Environment. The project aims to reduce greenhouse gas (GHG) emissions through energy efficiency in the building sector.

The LCEI project is seeking a qualified Individual Consultant for Content Editing.
