Report: 141/001

## 100 Football pitch Project

**Football Ground GDh. Gahdhoo**Site visit report – supporting information.

Date of visit	<sup>10th</sup> March 2021			
Site address	Gahdhoo Football Ground			
Weather Condition during site visit	Hot dry and sunny			
Officials present during site visit	Council President, Sports councilor			
Local Contact details	Island:	GDh. Gahdhoo		
	Contact name:	Rayyan Jamal		
	Designation	Council President		
	Address:	7703347		
	Tel:			
	e-mail			
	Fax:			

Scope of the Project	Design and construction of full-size football Artificial turf pitch					
	Category of pitch requirement		FIFA Recommended			
	Level of competition and active requirement	National Level				
Proposed usage	Level of play		National Level			
	Intensity of play per week / ye	36 hrs /week				
Field orientation	North / South					
Proposed filed dimensions	EW + EE					
		Length		Width		
	Field size	100m		64m	64m	
	Run – off area	North	South	West	East	
		3m	3m	2.5m	2.5m	
	Total Green area (synthetic)	106m x	69m			
Spectator Area	Pavilion with some level of fu	nctional rooms				
Fencing	Evicting facility/ Structure has	Existing facility/ Structure has full boundary wall and fence				

## Site Photo

-	the North of the island; 5 trail holes were made. Noticed +/- 200 mm of rootzone and silt reclaim reds removing of the grass patches and scrap. Backfilling with the sand scrapped, if available trapped silt,
Groundwater evidence	Location is North of the island, one of the trial holes standing water found in 500mm depth.
Topography	Old surface with patches of grass, with +/- 200mm of rootzone, ground area likely lower than outside
Drain Outlet	No public sewerage pipe or existing drain system in place, drainage must be designed with enough soak pits to flush excess water.
Existing Service & sports lighting	Sufficiently large pavilion with functional rooms and seating space, no flood lights however some other sporting courts on the west side of the plot.
Disposal of Spoil	All removed spoil sand needs to be removed in accordance with council instruction.

## **Trial Holes**

Construction Detail: Proposed site is large laid to maximize space. Sand use must be i	enough, existing sports courts and pavilion as a reference to lay the footprint. Pitch must be maximized
Site access	Proposed site is accessible from all 4 sides, with narrow roads, however distance from harbor and narrow roads on the west side may cause some degree of difficulty.
Site Compound	It is located on North / East of the island, full boundary wall and existing sports courts
Best time of the year to construct	No significant time of the year
Working restriction	No
Drainage	Subbase will be designed with gutter and soak pit to drain the excess water.
Provision for new functional extension	Proposed site is sufficient for a full pitch project, Existing pavilion maybe extended in the space available on sides.
Maintenance equipment requirement	TBC
Sports equipment	TBC

Other	Consideration
-	Backfilling sand (utilizing scrapped sand needs to maximize)
-	Ground water level
-	Transporting of material and heavy vehicle.
