

Queries	Answer
<p>Deliverable 2: Island specific integrated water resource conservation and management plan (ISIWRCM). Need more details about the final outputs and expectations from the client. The RFP provides a very vague outline.</p>	<p>As mentioned in the ToR, the deliverable 2 is a handbook that shall be a step-by-step guiding document for the island councils to prepare their island specific water resource management plan through the IWRCMF</p>
<p>Deliverable 3; ISIWRCM development and tested for one target island. To provide more details of what the client's expectations are in terms of deliverables for this component. This is important to prepare the project budget.</p>	<p>The expectation is to:</p> <ul style="list-style-type: none"> - Produce the island specific integrated water resource conservation and management plans - Undertake Training of Trainers (ToT) for at least 10 island level stakeholders (covering all relevant island level institutions) in order to implement the Plan. - Pilot test and evaluate training materials that has been produced in deliverable 2, with target audience - Produce any revision to the training materials and submission to client approval
<p>In deliverable 2; what is the duration of the "short video clip". What is the requirement in terms of content.</p>	<p>This is a short video clip of about 7-10 minutes, on how to develop and implement ISIWRCM plan</p>
<p>Pandemic situation is still very unpredictable in Maldives and during the next six months to a year, although we foresee some ease in travel restrictions, there is the potential of further travel restrictions. In such instance, the final deliverables will be impacted as traveling to target islands is an essential part of the assignment. Has the ministry considered this possibility and if so what would be the outcome and implications for the winning bidder.</p>	<p>If any such situation arises, the bidder shall fully justify the claim and request for extension of time</p>
<p>The RFP refers to 3 primary documents which are to shape the content of the IWRCMF, these are: Water & Sewerage Act (08/2020), regulations developed under the Act, and Water & Sewerage Strategic Action Plan 2020-2025. Can these documents all be made available to the bidders ?</p>	<p>All the water act and regulations can be accessed online on https://www.environment.gov.mv/v2/en/types/publications</p>
<p>The RFP requires the two identified project posts to be present in the Maldives for the Works. Given the current Pandemic, and the desire to strengthen national teams with international experts in SIDS IWRM, can teams also include key experts based overseas, supporting local partners</p>	<p>Please refer to attached Addendum</p>
