

Local Consultancy for Concept Design, BOQ and Architectural Drawings for the Establishment of Trade Facilitation Center – Request for Proposal

12 July 2021

A. Introduction

Business Center Corporation (BCC) is a state-owned enterprise (SOE) incorporated in 2017 to coordinate and oversee the management of regional business development service centers (BCs) established, by the Ministry of Economic Development, under the SME Act (6/2013).

The purpose of the Business Centers (BCs) is to contribute to the establishment of an enabling business environment to support inclusive economic growth by providing and building capacity for sustainable, demand-driven business development services and to facilitate market access which will serve the growth needs of the micro, small and medium-sized enterprise (MSME) sector in the Maldives.

B. Scope of work

BCC would like to engage services of a qualified Concept Designer for the planned Trade Facilitation Center to be developed in Hulhumale'. We intend to design and develop small commercial spaces within this facility and sublet these spaces to new emergent businesses. BCC would like the building to be a 06 (six) storey, prefabricated. The size of the co-shared space is estimated to be 5000 SQFT. The plan is for the building to be used as:

- Production Factory
 - Sewing machines
 - Toilet space
 - Training area - capacity 50 pax
 - Storage
 - Administrative office space - 3 person
- Packaging Facility
 - Packaging equipment and machinery area
 - Toilet Space
 - Administrative Office - 3 person
 - Separate area for food and souvenir packaging
- Maker Space / Incubators
 - Carpentry
- Parking Space
- Storage Facilities
- Vertical Farming
- Food Testing Lab
- 02 (two) Outdoor Cafés

1. Planning the overall appearance and design of the space in consultation with BCC

- Determining goals and requirements of the project
- Creating a plan which layouts the overall appearance of the space with full equipment installations and furniture
- Sketching the preliminary designs including partition and electrical layouts
- Specify the materials and furnishings required (lighting, furniture, wall finishes, flooring)
- Coordinating colors, materials, and lighting to achieve design goals.
- Anticipating additional features which may be of use to the users of the space.
- Miscellaneous decorative details

2. Working with contractor(s) to oversee the required adjustments to the building to achieve the design objectives

- Coordinating with building contractors, if any, to implement the plans and specifications for the project
- Visit the site for a full inspection after the project is complete and ensure that the objectives and goals (both design and project) of the projects are met.

3. Preparation of BOQ and Architectural Drawings

C. KEY DELIVERABLES

I. Full development of design layouts and plan (Component A)
