Local Consultancy for Concept Design, BOQ and Architectural Drawings for the Establishment of Makerspace and Training Institute –
Request for Quotation

05 August 2021

A. Introduction

Business Center Corporation (BCC) is a state-owned enterprise (SOE) incorporated in 2017 to coordinate and oversee the management of regional business development service centers (BCs) established, by the Ministry of Economic Development, under the SME Act (6/2013).

The purpose of the Business Centers (BCs) is to contribute to the establishment of an enabling business environment to support inclusive economic growth by providing and building capacity for sustainable, demand-driven business development services and to facilitate market access which will serve the growth needs of the micro, small and medium-sized enterprise (MSME) sector in the Maldives.

B. Scope of work

BCC would like to engage services of a qualified Concept Designer for the Maker Space & Training Institute to be developed in Muranga Magu, Male'. BCC would like the building to be a 03 (Three) storey, prefabricated. The size of the land is estimated to be 2000 SQFT. The building to be used as:

- Ground Floor – Storage & Parking
- 1st floor - Maker Space (For tailors)
- 2nd Floor - Maker Space (For tailors)
- 3rd Floor - Training Institute
- 4th Floor – Green Studio

1. **Planning the overall appearance and design of the space in consultation with BCC**

- Creating a plan which layouts the overall appearance of the space with full equipment installations and furniture
- Sketching the preliminary designs including partition and electrical layouts
- Specify the materials and furnishings required (lighting, furniture, wall finishes, flooring)
- Coordinating colors, materials, and lighting to achieve design goals.
- Anticipating additional features which may be of use to the users of the space.
- Miscellaneous decorative details

2. **Working with contractor(s) to oversee the required adjustments to the building to achieve the design objectives.**
   - Coordinating with building contractors, if any, to implement the plans and specifications for the project
   - Visit the site for a full inspection after the project is complete and ensure that the objectives and goals (both design and project) of the projects are met.

3. **Preparation of BOQ, BOM and Architectural Drawings**
