

CHILDREN'S PARK

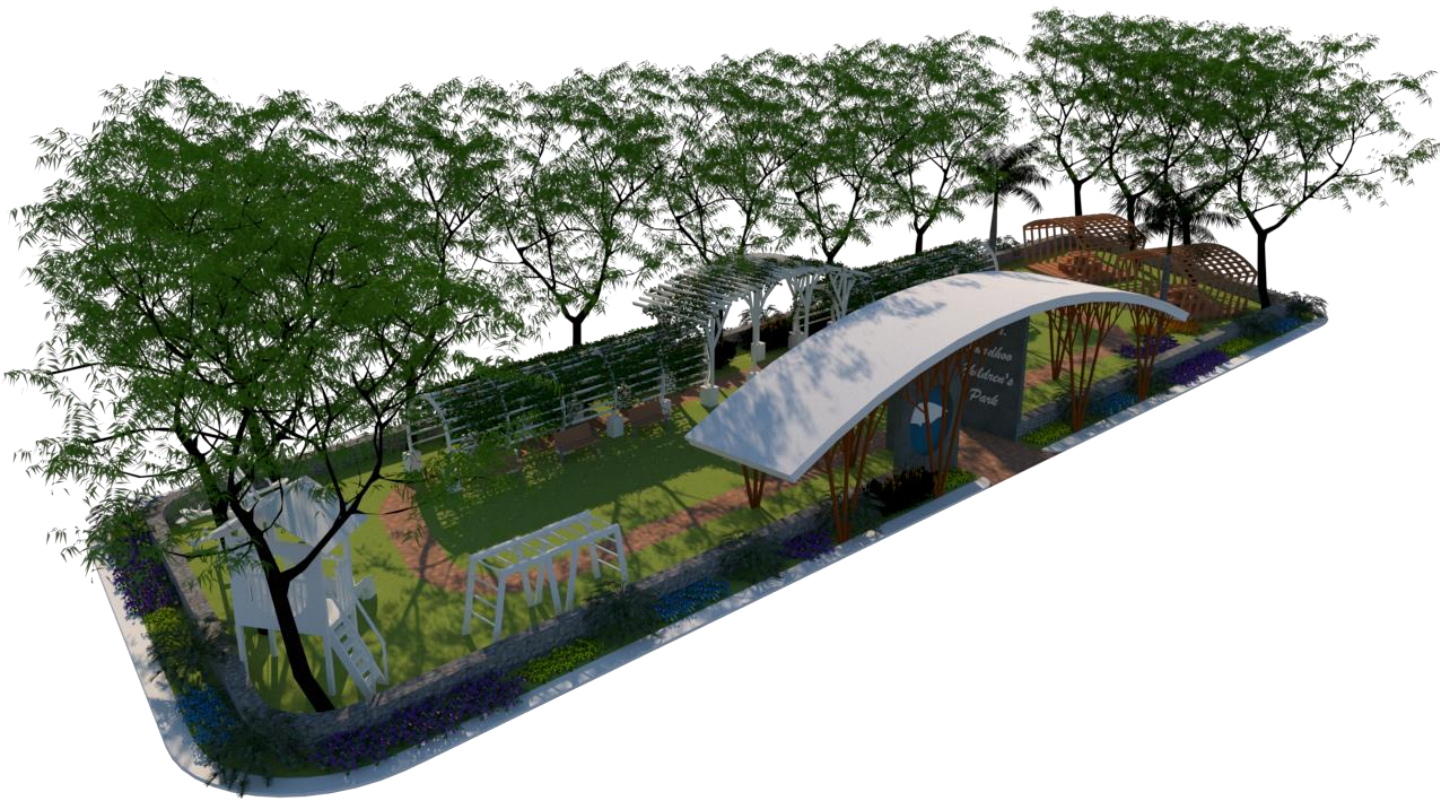

DESIGN PROPOSAL

23rd March 2022

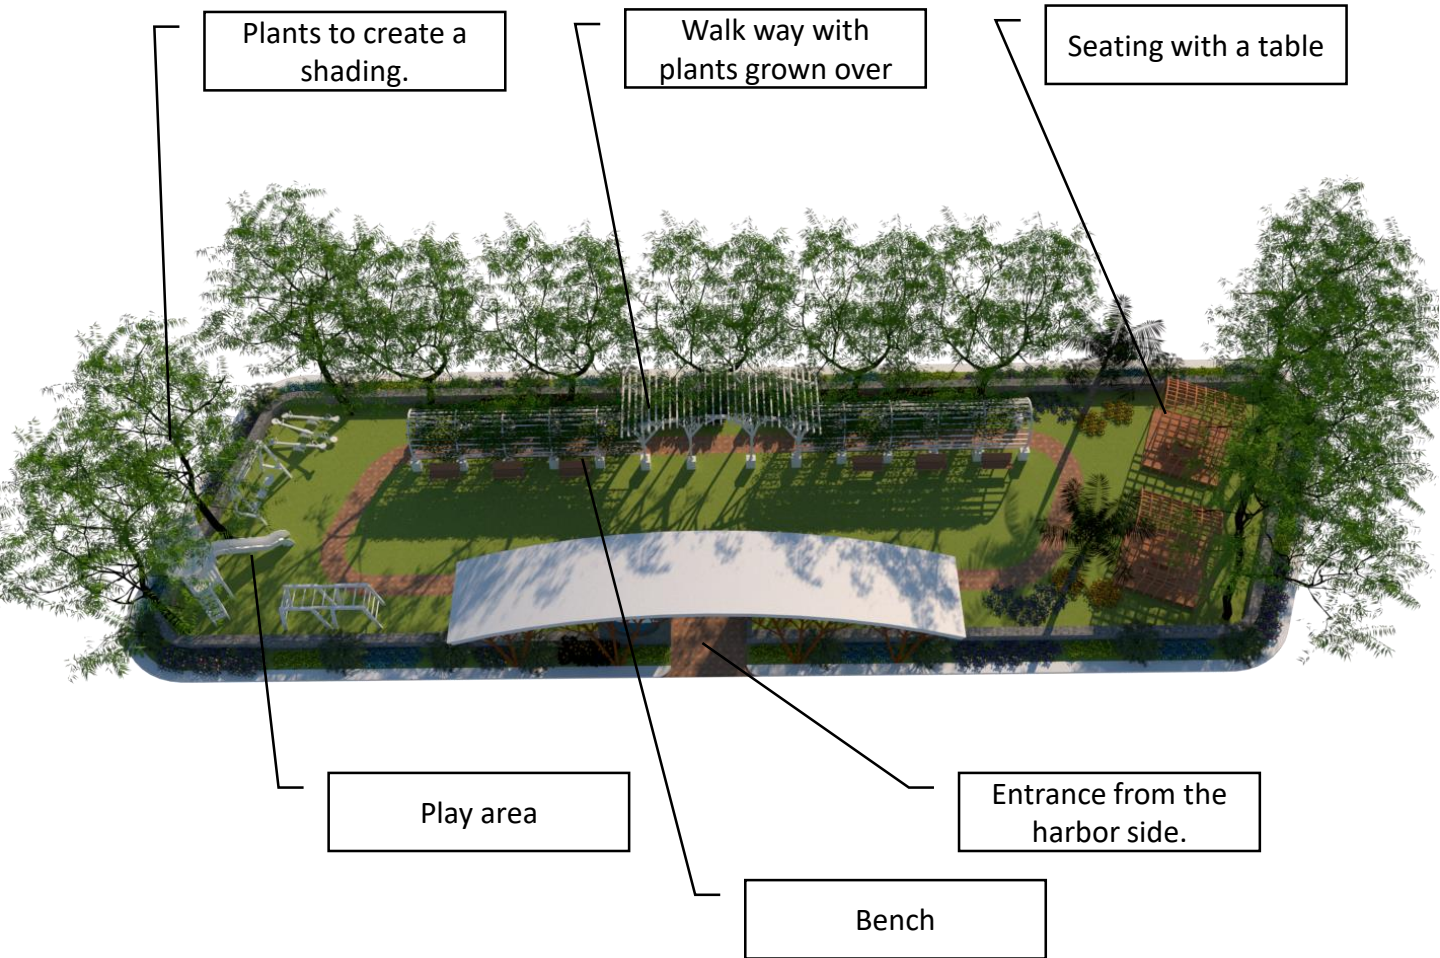

In line with the announcement made on March 6, I have made a proposal for the children's park. According to the announcement the park should be children friendly and there should be green areas walk ways.

Therefore in my design I have tried my best to incorporate these features.

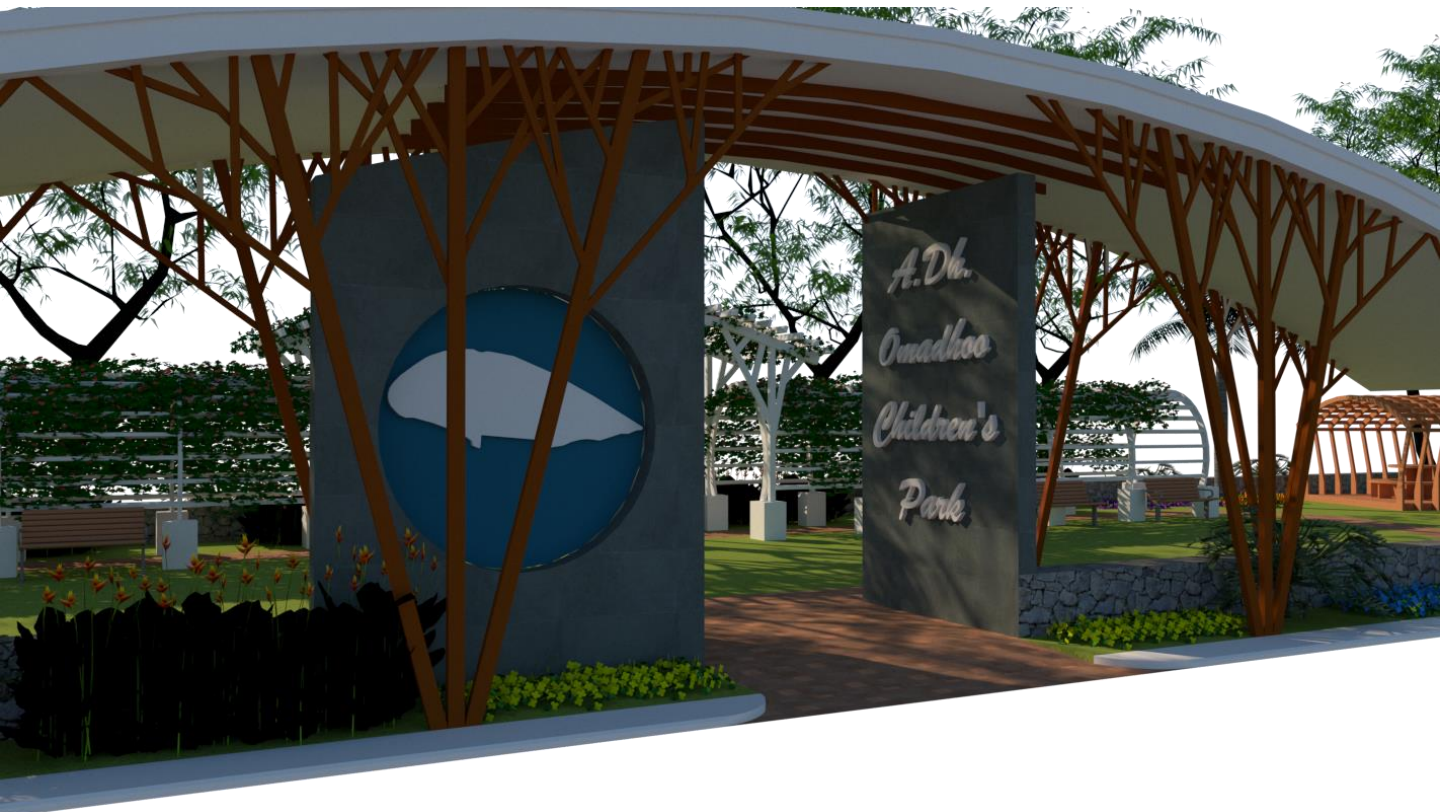

Design

Since it is an open plot I have planted shading trees around to create a shaded environment for the children's. also this reduce the heat of the place.

Renders

Entrance

Play area

Walk way with plant over

Seating around a table

Benches
