#### 4. Inspections and Tests

The Manufacture and/or Supplier shall carry out any test and/or inspection deemed necessary to verify that the characteristics and performance of the Goods comply with the Schedule of Requirements and Technical Specifications.

##### 4.1 Inspections

4.1.1 Pre-delivery inspections: Before shipping the goods, a pre-delivery inspection (visual, functional, and quantitative check) should be carried out in the presence of the purchaser's representative or its duly authorized technical representative in a location agreed between both parties.

4.1.2 Inspections following delivery: with the assistance of purchaser, the supplier shall inspect all the equipment and other goods within seven days of delivery.

4.1.3 Unpacking of the equipment and other goods at the site shall be subject to a visual, functional, and quantitative check in the presence of the purchaser's representative or its duly authorized technical representative. Upon inspections/ checking and verification, any defective and non-functioning equipment shall be replaced by the supplier with no cost to the Purchaser.

Should the inspected or tested components fail to conform to the requirements of the Contract, the Purchaser may reject the component(s), and the Supplier shall either replace the rejected component(s) or make alterations as necessary so that it meets the Contract requirements free of cost to the Purchaser.

After the inspection following delivery, supplier shall obtain a Certificate of Delivery Inspection.

##### 4.2 Operational Acceptance Tests

Pursuant to GCC Clause 28 and related SCC clauses, the Purchaser (with the assistance of the Supplier) will perform the following tests on the Equipment.

Testing will simply consist of trouble-free operation for 7 consecutive working days under normal operating conditions.

There should not be any additional charges for carrying out acceptance tests.
