Annex – 1

TOR

1. Work details

1. Providing judiciary network and internet connectivity to all sites as per the requirements of Department of judicial administration Connectivity (Details mentioned in Section 5 Table 1: Site Details.)
 2. Providing access to judiciary network through a private or an end-to-end encrypted connection (lease line, SD-WAN or another alternative).
 3. In case proposed solution is SD-WAN it should be Fortinet SD-WAN (as our existing firewall is Fortinet)
 4. Service provider must do all necessary arrangements to connect existing phone network (Dhiraagu Cloud voice) to all sites as per the requirements of Department of judicial administration (**Detail mentioned in Section 4 Figure 1: Topologies**)
 5. Judiciary data center must include physical 1000 megabits per second backup internet connection from another ISP that uses a different submarine cable.
 6. Must include 10 public IPs (Excluding the IPs used for network connectivity).
 7. Must provide training on how to manage the given solution to Department of judicial administration IT team (6 person).
 8. Must include monitoring software (hardware would be provided by Department of judicial administration) which notifies Department of judicial administration IT whenever a connection is down.
 9. Monitoring software should be able to show real time bandwidth usage and log the bandwidth usage.
 10. Local area network of all sites should be isolated however if required Department of judicial administration should be able to establish connection in between sites.
 11. Department of judicial administration must be able to centrally network access of all sites.
 12. Any works that needs which is not mentioned in this document must be included in the proposal.
 13. Must include 2 years hardware warranty.

2. Service agreement

1. Service agreement for this project is valid for 5 years effective from work completion date.
2. Faults related to equipment, software or connectivity provided by the service must be immediately attended by the service provider.
3. Faults related to equipment, software or connectivity provided by the service must be resolved within a reasonable time.
4. Incase an equipment supplied during the project is damaged, the service provider must be able to replace it. (To be added to monthly if warranty period is over)
5. Service providers must assign a focal point to ensure fast and reliable communication.

3. Network connectivity Topology
