

Cretan olive oils

# Elasion Cretan Olive oils

For many years Cretan olive oil was a well-kept secret of health and longevity of the people of Crete. It is our conviction that this precious, golden-green-colored liquid extract of the Cretan olive groves should travel to households around the world and become an everyday dietary habit.

This really sums up our vision: start at the primordial olive groves of Crete and reach every corner of the world, proud advocates of the wholesome, nutritious, health-giving Cretan diet.

Our principles are twofold: respect for tradition and commitment to the future. Our foundations are firm, we never rest on past achievements, always pursuing new markets and new challenges.
