## ABOUT US

NC Coconut Co., Ltd. has been operating for over 16 years and is located in Damnoen Saduak District, Ratchaburi Province. The company is a manufacturer and distributor of products made from processed aromatic coconuts (Nam Hom variety), both domestically and internationally.

NC Coconut is committed to producing a comprehensive range of products derived from aromatic coconuts — from processing coconut products for the food industry to utilizing coconut by-products such as shells and other parts to create added value within the agricultural business cycle.

As a result, the company has been recognized as a model enterprise for high-value agriculture under the BCG Model in Ratchaburi Province and at the national level.

NC Coconut, 100% : Pure & Real aromatic coconut products, the needs of today's lifestyle that focuses on convenience, easy to consume, produced and distributed by NC Coconut Co., Ltd., which focuses on the production process under the NC Coconut brand to be of the highest quality and with real health benefits. The needs of consumers and are in demand in the market with more than 30 years of experience in growing aromatic coconuts in Damnoen Saduak District, Ratchaburi Province. NC Coconut brand is a coconut water that is selected from the "Kon-Jeeb varieties" species that has a delicious taste and is famous for its world-class taste. With modern production technology accredited with GAP, Organic, GHPs, HACCP and HALAL standards and recognized worldwide.

## The specialty of NC Coconut products

---

### TASTE

Since we have been living with aromatic coconuts for over 30 years, we know the nature of coconut water, how old it is and delicious taste.

---

### FRESHNESS

The coconut water that we process or export, we will cut fresh for 1-3 days. It will not be leave for long because the taste will change.

---

### SOURCE

The Kon-Jeeb varieties has received a GI or geographical indication. We therefore select only this species.

---

### CONTROL

We take into account production processes that require cooling or maintaining a stable temperature. So that the coconut water does not lose the taste.

Before drink, to be thawed in a normal refrigerator. It can be stored for another 10-12 days.
