

TASTE THE **DIFFERENCE**

THE COMPANY

The company Alimenco s.r.l. was born in Naples in 1994, from an idea of a young entrepreneur, Maurizio Staempfli, for the wholesale of a variety of food products. The development of the Company has also been supported by its alliance with a consolidated industrial partner based both in Italy and China.

The Company Alimenco s.r.l. , successfully operating on the international market, is situated in one of the best areas of Southern Italy, where both the climate and the geographical position foster the selection of very good local products. It is a Company which really cares for offering quality products, thanks to its direct connections with different ports of destination of its goods.

The Company's Mission is simple and transparent: to help any person in any part of the world, to taste healthy and genuine

foods, thus guaranteeing the right source of nutrients and energy. Products being synonym of high quality standards, made by solely using carefully selected ingredients. Legumes which can offer the best nutritional value, Italian tomatoes cultivated for spreading the Italian culinary tradition in the world, pasta offered in its most classical shapes and its specialities.

Over 50 years of experience and 3 generations alternating each other in upholding the prestige of the family Staempfli, which has been able over the years, to reach a number of 52 countries all over the world. A big success obtained thanks to the expertise and endurance of the Company managed by a team which has always been collaborating with the farmers of the area, who offer it fresh and genuine ingredients.

OUR SERVICES

The Company, since it is specialized in foreign trade, can meet any demands of its customers, by offering them a wide range of supplementary services.

Alimenco s.r.l. can ensure goods against damage risks during shipment. It can also offer other integrated services, such as: origin certification, health certification, quality certification, inspection certification, sea freight for the transportation of goods.

The company provides for fulfilling all customs formalities (exportation-transit-exchange-customs warehousing). Alimenco s.r.l. continues to provide assistance to its customers, also after the shipment of goods.

Thanks to its multi-year experience in the sector of export, together with its expertise in finding personalized solutions, Alimenco s.r.l. is the ideal partner for all the businesses working in the sector of foreign food industries. The company coordinates and controls all the stages of the goods life cycle (production, supply, loading, storage, shipment and door to door delivery), thus providing at the same time, a precious help for all administrative formalities. The transportation of goods to the different destinations, is generally carried out in containers, by ships which leave from the main Italian ports, like Salerno and Naples.

The Company, availing itself of the best shipping companies, can reach any port, and is always updated as regards shipping procedures. For this reason Alimenco s.r.l. usually works with Maersk Sealand, MSC, Ignazio Messina and C., China Shipping Containers Lines Co. Ltd.

An added value of the company is represented by its high quality standards and a very well developed customer care. The company provides for all the necessary documents for the sale of goods: origin certificates, product quality certificates, health and compliance certificates, origin declarations, NAFDAC AND FDA registration certificates, certificates which are mandatory for importing goods and any other documents required by the importing countries and by foreign trade.

In particular, the quality and origin of products are validated and certified by reliable laboratories and certification bodies and are officially recognized by competent authorities. In order to guarantee a safe and fast delivery of goods, the Company carefully keeps watch over the market trends. Therefore, Alimenco s.r.l. coordinates the production stage with the shipping and loading stages, in order to optimize the sale process and ensure punctual delivery of goods. In this way, the Company can satisfy the needs of its customers with promptness, together with guaranteeing high quality products.

SUNFLOWER OIL

Produced from sunflower oily fruit and seeds, this vegetable oil is a precious ingredient of the Mediterranean diet, because it is rich in fat monounsaturated and polyunsaturated acids.

OLIVE OIL

Solely produced from olive tree fruits, it is never mixed with any other oil. Totally free from solvents, it is labelled as olive oil, and is characterized by a taste being softer than that of the extra virgin olive oil, but it offers the same health benefits.

POMACE OIL

Pomace is the "full-bodied" product of olive pressing. Peels, stones and pulp of olives are pressed and later mixed with extra virgin olive oil, in order to obtain this special product, rich in organoleptic properties.
