

JUST AS NATURE INTENDED

Established in 1973, Hardwicks produces superior grass-fed beef, lamb, sheep and goat solutions graded to deliver a robust, tender, and juicy eating experience, time and time again.

Hardwicks is brought to you by Kilcoy Global Foods, a name respected for delivering premium, quality Australian protein solutions to the world. Quality assurance is paramount and is never compromised when working with Hardwicks. Owning the complete end to end processing operations means total control over all aspects of quality and safety, to deliver an exceptional product every time.

OUR STORY

Starting out as a small family-owned business, Hardwicks has been providing fresh, high-quality produce from local farms for over 50 years.

LOCAL AUSTRALIAN EXCELLENCE

A true paddock-to-plate experience, Hardwicks works with local partners in southern Australia to use sustainable farming methods. This ensures the continued health of the land and the highest standards in animal welfare.

A FULL RANGE OF QUALITY PRODUCTS

Hardwicks produces grass-fed beef, lamb, sheep and goat products, sold chilled or frozen. Raised in southern Australia in a cool climate with regular rainfall and naturally rich pastures, our partner farmers pride themselves on the animals they raise, delivering a consistent year-round supply.

LAMB

Hardwicks' grass-fed lamb products are world-renowned for their tender, juicy and full-flavoured eating experience and unparalleled quality. As specialists in grass-fed lamb, we hand-pick only the best producers to work with.

BEEF

Hardwicks premium grass-fed beef is sourced from the lush southern regions of Australia, where our cattle have access to some of the most pristine pastures that Australia has to offer, delivering full flavour and tender beef.

SHEEP AND GOAT

We have hand-picked only the highest quality goat and sheep producers and work together to ensure a premium and consistent product all-year round.

RELIABLE SUPPLY

Our specialised small stock processing plant has state-of-the-art facilities with a highly efficient and reliable system for processing red meat solutions. We can tailor our product offering to suit your specifications and guarantee a quality supply of small-stock year-round.
