EXPORTS PRODUCT CATALOGUE

Good food, Good life

Nestlé has been the leading food and beverage company in Pakistan for 35 years. We are proud to bring some of the most iconic Pakistani brands in beverages, tea creaming, dairy culinary and many more categories to global audience.

We take great pride in the journey we have covered; We are currently exporting to 26 countries with Nestlé Pakistan's own produced brands that are not being offered in those markets by our Nestlé affiliates. Our third-party importers play a key role in helping us expand our availability to new markets. We are constantly on the look out to collaborate with new local partners in more countries who have a deep understanding of the specific market's dynamics, trends, and preferences.

Pakistan's high-quality produce and our state-of-the-art manufacturing facilities help us offer great tasting and superior products while with our third-party importers we aspire to develop strong distribution value chains to reach out to more countries and consumers globally.
