ABOUT US

SUICO produces, processes and packages rice, beans, lentils, and staple foods of traditional and exotic origin. We established and developed the popular retail brands Krina, La Garone, and Pas-siflora and export foods to the Balkans, Central Europe and the Middle East. We are active in the FMCG sector and produce private labels for various grocery store chains and our partners.

We believe that caring for food is caring for both people and the Earth. For more than 25 years we've put our heart and expertise into every grain of food we produce and pack.

CERTIFICATES

KRINA

With the Krina brand we produce and package those foods that every family loves and without which the home made cuisine cannot exist - rice, beans and lentils. Krina can inspire any cook. With our products you can prepare your favourite stuffed peppers, Japanese sushi or Italian risotto. Because rice has an infinite number of faces and we offer a large part of its diverse types.

LA GARONE

La Garone is a brand for ancient cereals and seeds, signature muesli, gluten-free pasta and granulated vegetable proteins, which you can find at an affordable price in the supermarket.

La Garone products share the millennial history of cereals and transfer the wisdom of feeding ancient civilizations into modern everyday life.

PASSIFLORA

As food lovers and keen travellers, we share with you our culinary adventure called PASSIFLORA. The original collection of natural sugar and salt includes selected products from around the world for connoisseurs of cuisine.

We named it PASSIFLORA (passionflower) in honour of our love of food, life and adventure. We welcome you to join us.

RICE MILLING

LEADING RICE PRODUCER IN THE BALKANS

The expansion of the area of rice fields, modern agricultural equipment, high-tech processing machines, the volume of production, the closed production cycle, and the variety of products rank us among the largest rice producers in the Balkan region.

over
900

hectares of paddy fields,
which continue expanding

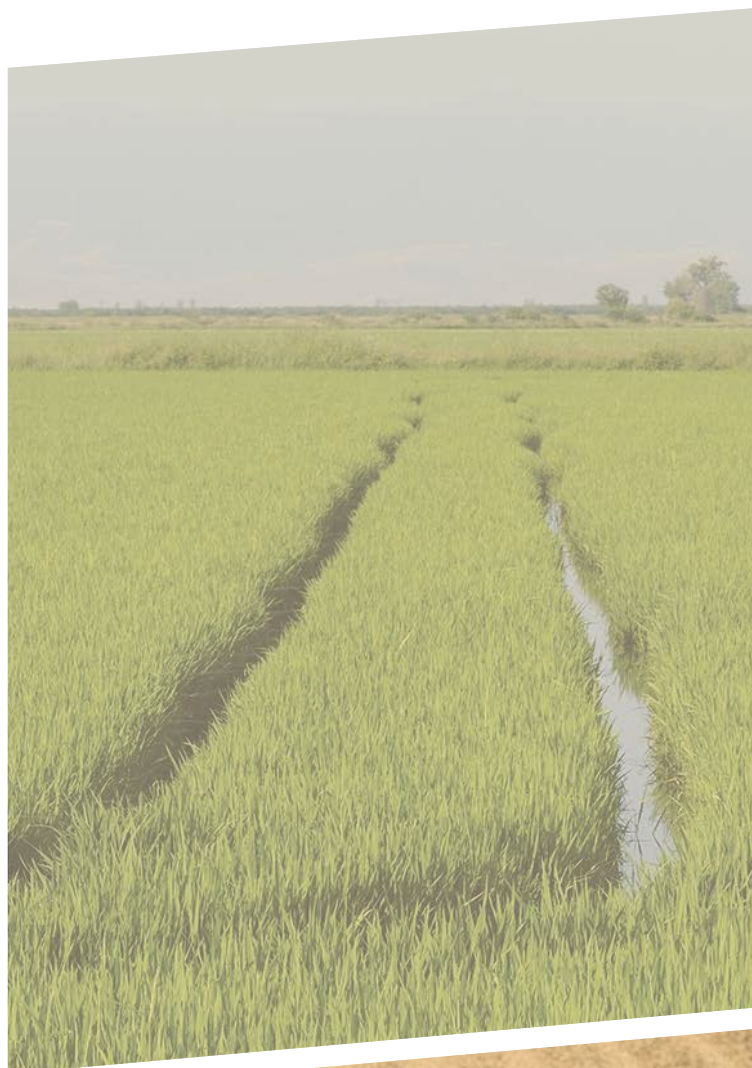

over
23 000

tons of paddy rice pass
through our rice processing
plants on an annual basis

over
30

countries in
Europe and Asia

We export our products to dozens of countries in Eastern Europe, Central Europe and the Middle East.
