Brice

corporate profile

Our philosophy

“to provide quality food preparation equipment solutions for your business... large and small”

Company profile

Brice Australia supplies and services high quality food equipment for commercial kitchens, supermarkets, deli's and butchers. From small hands-on equipment through to fully automated process-line equipment, Brice Australia can satisfy any sized business with food preparation solutions. Brice Australia has partnered with prestigious manufacturers in Europe to provide the Australian market with some of the highest quality food preparation and weighing equipment available.

Brice Australia is proud of its products and backs each one with a nation-wide service and maintenance network of trained, experienced technicians. Our national team of qualified service technicians is supported by an extensive range of factory genuine spare parts. With representation throughout Australia, Brice Australia supplies, installs and services equipment almost anywhere in the country.

Experience

Brice Australia is an Australian owned and operated business offering service and support.
