# THE LITTLE TIN CO DIFFERENCE

At Little Tin Co, we are re-imagining the time-honoured tradition of canning, by preserving premium, in-season Australian seafood in tins that can be enjoyed anytime, anywhere. We even can our products locally, by hand in our small batch South Australian cannery

**LOCALLY** sourced seafood not only helps support our local economy, but it also ensures our supply chain is transparent, giving us confidence that we are producing **DELICIOUS**, sustainable and environmentally responsible seafood. When developing products we carefully **CONSIDER** each species chosen, the location it is sourced and harvest methods used to ensure ethical sourcing practices.
