

BEAUTIFUL HYDRATION

 Lunae Sparkling

SUGAR FREE, BOTANICALLY INFUSED, POSITIVELY CHARGED

My Story

It all started with tea...I was running a loose leaf tea business when I realised there weren't a lot of premade drinks out there that offer the health benefits of botanicals. You either had to make something yourself, or the alternatives were packed with sugar. The idea for Lunae Sparkling was born.

At the same time, I was going through a spiritual shift in my life, feeling the need to slow down, be more intentional and enjoy every moment. I began meditating and experimenting with the properties of gem elixirs. They seemed to work wonders for me, so decided to integrate positively-charged crystals into my new 'botanical baby'. Lunae Sparkling came into the world just a few short months later with a beautiful design twist and tantalising opaque colours. Thousands of like-minded people are enjoying the benefits of Lunae Sparkling, with its luxurious feel and deep connection with the self.

LUNAE SPARKLING IS A BEVERAGE SENSATION
THAT BENEFITS MIND, BODY AND SOUL
IN ONE BEAUTIFUL DRINK...

A success story

THE UNIQUE COMBINATION OF LUNAE SPARKLING'S PROPERTIES HAS SEEN IT GO FROM FLEDGLING STARTUP TO A MOVEMENT LEADER....

HEALTHY

Steam distilled botanicals infused into Lunae Sparkling provide multiple health benefits, while being sugar free and forever tasteful. A functional beverage that looks after you inside and out.

SPIRITUAL

Lunae Sparkling is brewed at the height of each moon cycle and filtered through positively charged crystals. This adds an element of positive energy, mood and mindful intention.

SOCIAL

Lunae Sparkling offers a sophisticated alternative to sugary sodas when you're heading out for a few drinks with friends. Great to have on the night, even better for the next morning rise & shine.

BEAUTIFUL

Combining hydration with botanical benefits means Lunae Sparkling is great for healthy skin. It also comes in wonderful opaque colours that look amazing in the bottle, or in a glass.

Why crystals

We often get asked why we use crystals in our brewing process.

People have been making crystal water for centuries to help bring positive energy to both healing and spirituality.

The concept is that crystals have their own unique vibrational frequency and by filtering water through them, the water is then elevated to that same frequency. Once this charged crystal water is ingested, it is thought to in turn elevate your own energy, promoting positivity in health, mood and intention.

We use different types of crystals paired with botanicals to help compliment the intended positive effects of each crystal elixir.

Our process

All Lunae Sparkling drinks go through a unique brewing process where spring water is filtered through positively-charged crystals over 24-hours to transfer their positive energy frequencies into the drink.

It's then lightly flavoured using steam-distilled botanical extracts to provide further health benefits, and finally carbonated to add a bit of fizz to your lips

Brewing is done at the peak of the moon phases each month. This cycle brings a calm, intentional flow to what we do, allowing us to concentrate on the quality of the product, rather than simply pushing it out into the world as quickly and cheaply as possible. It also adds a spiritual element, where new intentions can be reset and the old cast away.

Whether you simply enjoy it for the sugar-free taste, as a beautiful mix to a cocktail, or something a little bit deeper, Lunae Sparkling has many faces.

Nurturer, spirit guide, temptress.

Sparkling Rose

Bloom into your best self

Bloom into your best self with this aromatic sip.

Rose water contains botanicals that aid digestion, reduce stress, and promote skin/hair health from within.

Add in the good vibes from Rose Quartz to invite in positivity and you have a sparkling new you that's the best of the bunch.

Sparkling Lavender

Relax into your skin

Relax into your skin with this soothing sip.

Lavender contains anti-inflammatory properties, hydrates the skin, and has an aroma that helps relieve stress.

Add in balancing vibes from Amethyst to invite in creativity and you have a re-freshed you that's ready to shine..

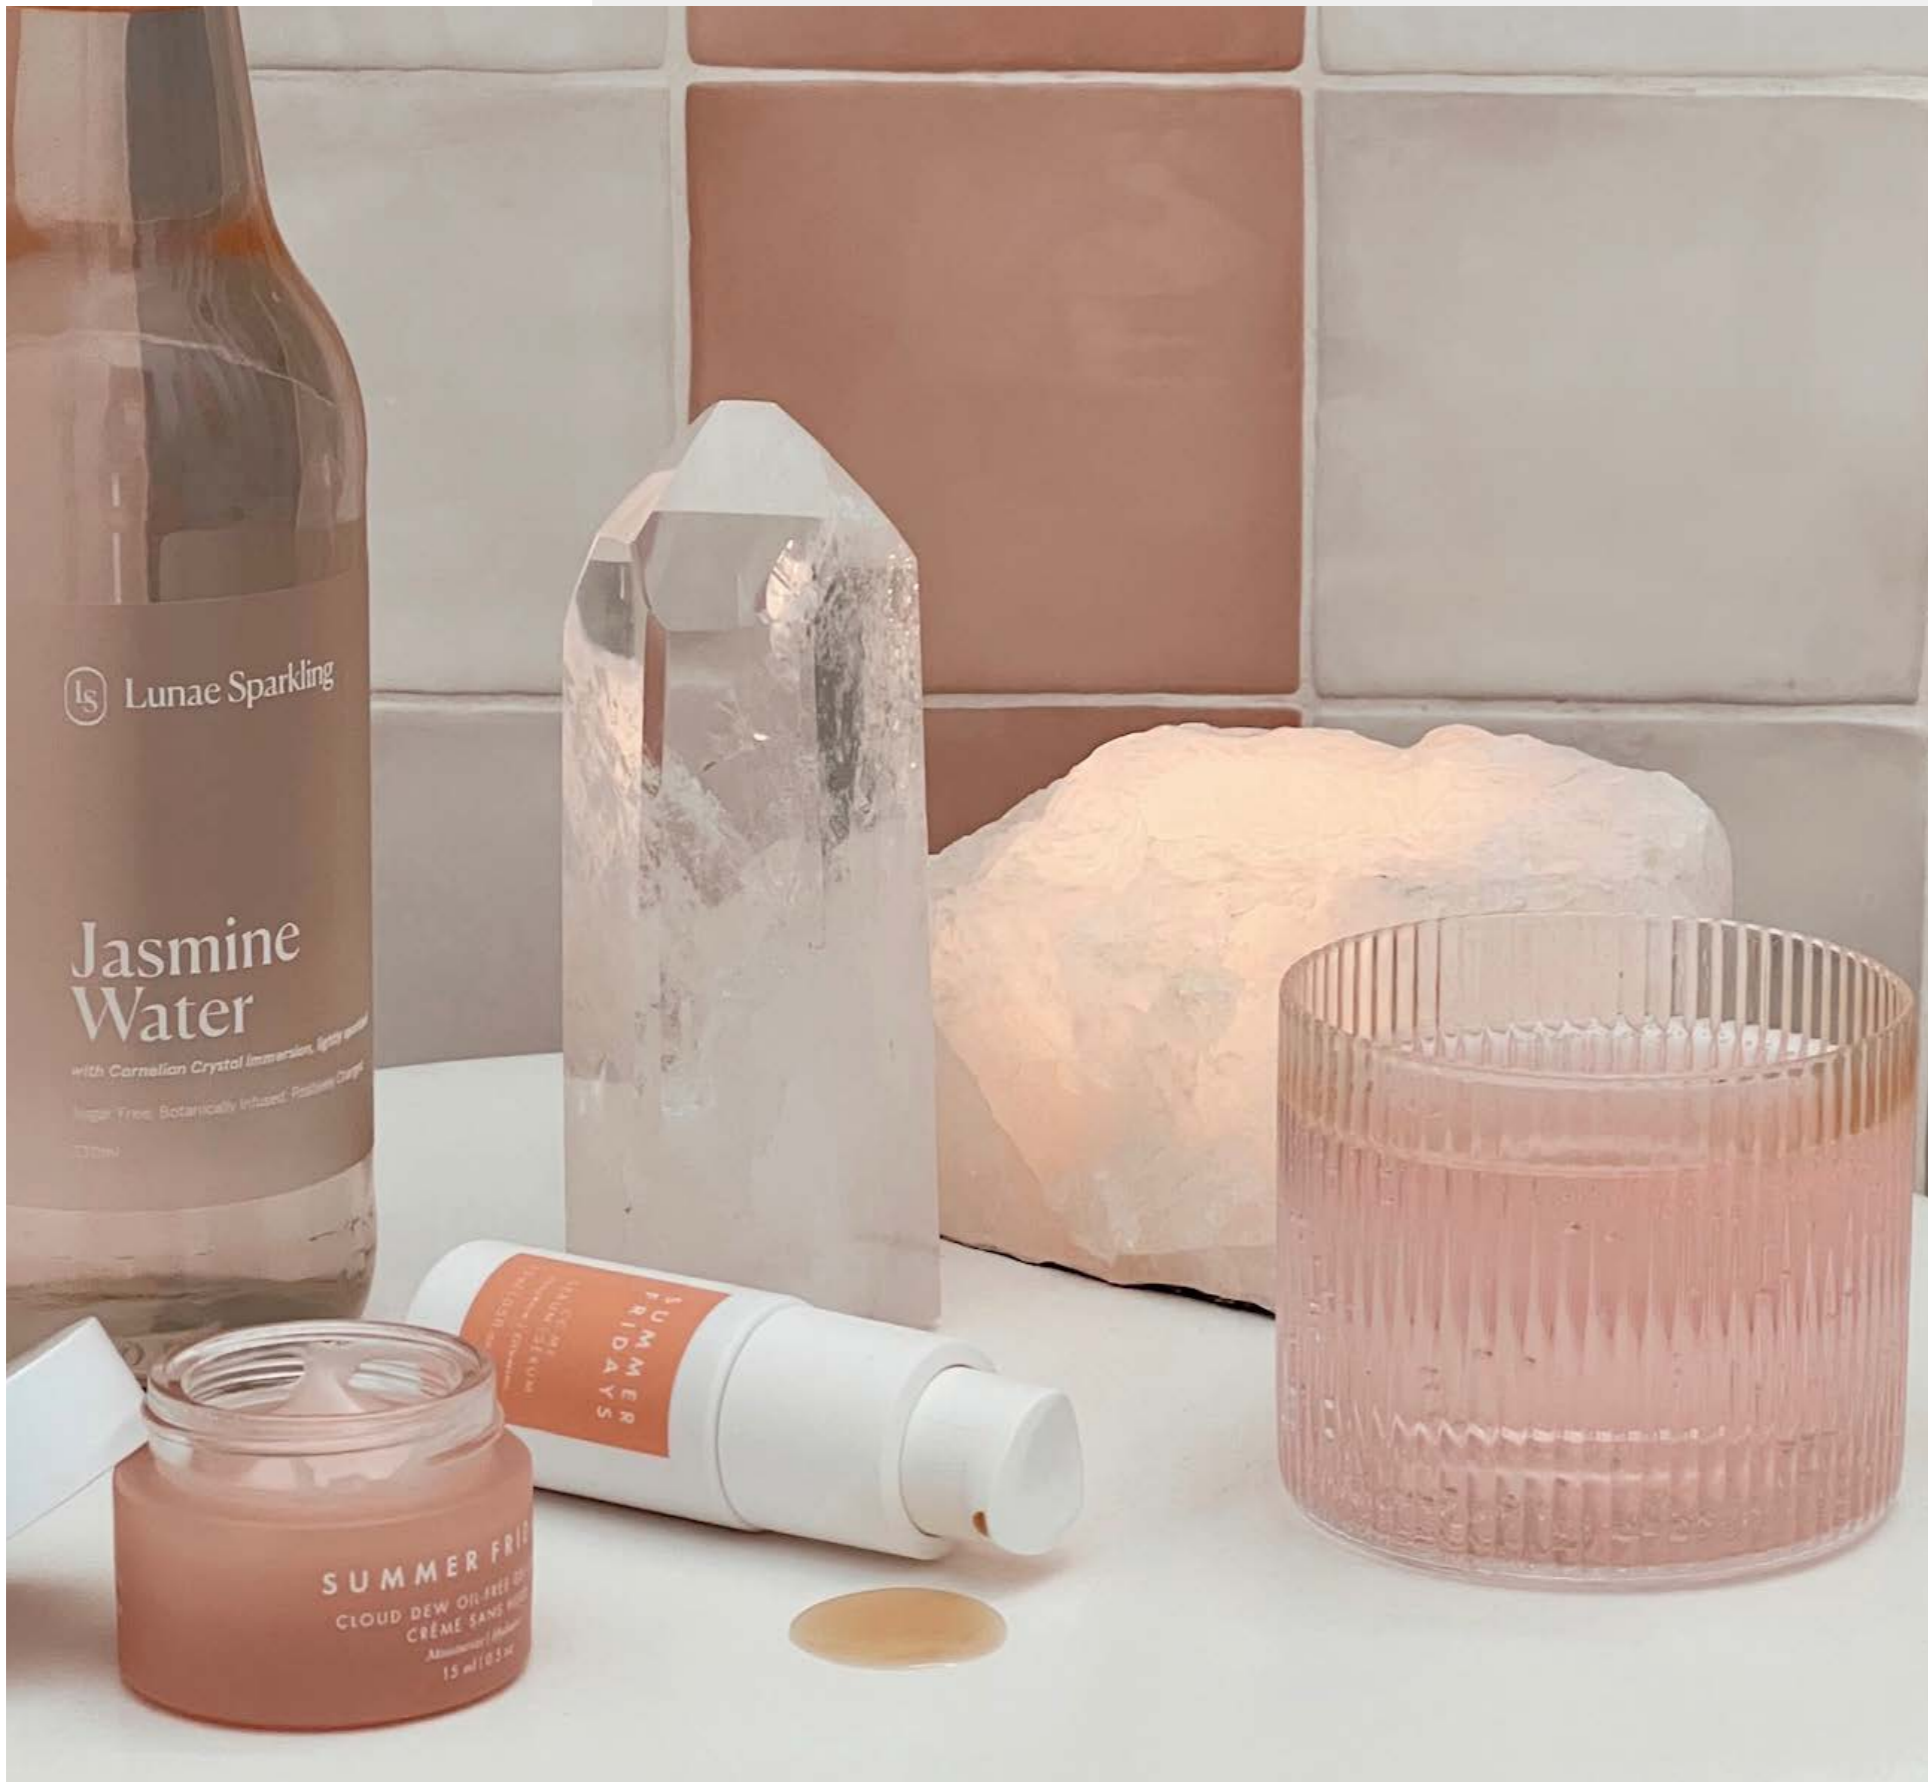

Sparkling Jasmine

Lift your mood to the moon

Lift your mood to the moon with a sip to release your inner temptress.

Jasmine stimulates serotonin and has an aphrodisiac quality to get you feeling frisky.

Add in Carnelian Crystal immersion to invite in courage and passion, and it may just be time to call that crush.

Sparkling Juniper

Shine like the divine

Shine like the divine with a sip to make you sparkle.

Juniper contains botanicals that help reduce inflammation and hydrate the skin from within.

Add an Amazonite Crystal immersion that invites in positive energy, and you have a delicious ritual that feels like heaven on earth.

Sparkling Palo Santo

Turn your doubts to smoke

Turn your doubts to smoke with a sip to bring balance.

Palo Santo is used to aid digestion, support meditation and protect against negative energy.

Add in Smoky Quartz immersion to invite in stillness and you have a grounding ritual for resetting better intentions.

Introducing our Vivid Collection

Vivid is a word with many meanings. And a word that perfectly reflects our new collection. Vivid memories, vivid dreams, vivid images, vivid feelings, vivid colours. This new series of gem elixirs reflects all of these and we look forward to releasing them all in 2023.

Sparkling Frankincense

Connect with your senses

Connect with your senses through sippable self care. Frankincense promotes inner calm and contains terpenes which help with inflammation.

Add in a Blue Calcite immersion that invites deeper connection with your intuition and you have a luscious sip to re-sparkle your spirit.

Sparkling Cactus

Ready, set, glow.

It's time to ready, set, glow with a sip that hydrates like desert rain. Prickly pear is rich in antioxidants that reduce inflammation and electrolytes that help replenish your body.

Add a Rainbow Moonstone immersion to invite free-flowing energy and you have a luminous you that's fully refreshed.

Sparkling Orange Blossom

Create a great day

Create a great day with a sip that soothes and gets you moving. Orange Blossom contains botanicals that help with inflammation and settle the stomach.

Add in Sunstone immersion that invites heightened intuition and it's time to rise feeling positive, powerful and delightfully original.

Sparkling Aloe

Care for skin from within

Hydrate your skin from within while enjoying a sparkling sip. Aloe Vera is rich in antioxidants and contains electrolytes that help replenish your body.

Add in a Green Jasper Crystal immersion that promotes inner calm and you have a drinkable ritual that's relaxing yet replenishing by nature.

“Lunae is all about finding that balance in our own lives. Because if you balance health and beauty in mind, body & soul, you illuminate the world around you.
