**Let's be real. Eating iceblocks should be a feel-good experience, so we keep it real with our iceblocks. With a passion for chef quality ingredients and flavours, we want to give people the chance to enjoy a delicious treat without the nasties. Made with real fruit, all natural ingredients and crafted with genuine love. That's how we've been keeping it real since 2014.**

## **Belgian Chocolate**

I'm as fine as Belgian dark chocolate for a flavour you can savour. Try and stop at just one of me. I double dare you.

## **Coconut Ginger**

I'm a perfect blend of creamy rich coconut with hints of ginger. One tease and I'll have you weak at the knees.

## **Cookie Crumble**

Fresh-baked cookie chunks sprinkled with chocolate shavings. Fancy, flavoursome, and fabulous, is how our cookie crumbles.

## **Mango Swirl**

Some call me the taste of Summer, but you can enjoy me all year round. Lick, suck, or bite me for a one way trip to the tropics.

## **Passionfruit Tart**

Let me smother you with gentle kisses of creamy tartness. Mouth-watering and ripe for the licking, I'll have you puckering up in no time.

## **Salted Caramel**

Deep sugar caramelisation and a light touch of sea salt leaves a hint of darker notes. One lick of me and I'll have you singing my praises.

## **Strawberry Lemonade**

An old school classic, I'm full of fresh-frozen strawberries and ice cool lemon juice. I've been told I'm a hit with the taste buds. Try me to find out.

## **Watermelon Lime**

Take a load off and cool your melon for a tick. Chill out with me and my traces of zesty lime while I put a pep back in your step.
