The freshness of Wando's  
uncontaminated sea

**Healthy food made  
with good ingredients**

## Main value

# Nothing but the best products, that is Daehan Trading's philosophy.

Good food is made from good ingredients and hearts.

We always think from the consumer's perspective, prioritize trust and quality, and develop products with the desire to supply fresh organic marine products with a customer-first focus. We are proud of the quality of all products produced at Daehan Trading. We are doing our best to make good products every day.

## About us

# A company that produces fresh and healthy food

An organic seafood food company created by Wando, a treasure of life and uncontaminated sea.

We will become a company that leads a safe and proper food culture for healthy food and enjoyable eating. We manufacture the best products with the highest quality and cutting-edge facilities to create the right seaweed and food culture. We also have a logistics system that allows quick delivery anytime, anywhere. We will bring you the best freshness and taste.

## fresh products

Wando, Jeollanam-do, the home of seaweed food. Fresh kelp grown in uncontaminated sea

## Good ingredients and service

The freshest and best kelp is dried and selected in clean indoor facilities.

## Honest mind

We manage our food honestly and meticulously with the mindset that our families are the consumers.

## Cleopatra Salt Seaweed

The clean sea of Wando is a paradise for healthy seaweed that is recognized around the world.  
We introduce the best taste and quality achieved by combining clean seaweed and clean salt.

Introducing Cleopatra Salt Seaweed.

Cleopatra salt

## Cleopatra Salt

- ✓ Cleopatra Salt is a natural rock salt that is transparent and clean.
- ✓ It is a healthy salt that has no bitter, so you can consume it with peace of mind from radiation, microplastics, and heavy metals.
- ✓ It is a crystal salt that boasts the highest purity of 97% Natrum without any impurities.

## Cleopatra Salt Seaweed Set

Cleopatra Salt Seaweed is made with seaweed from clean Wando seasoned only with Cleopatra salt, so it contains no artificial sweeteners. In particular, this product uses transparent and pure Cleopatra salt that is free from microplastics, bitter, radioactivity, heavy metals, and chemical additives that are harmful to the human body, so you can enjoy a healthier and deeper flavor.

## Transparent and strict quality control process

Collection ▶ Storage ▶ Grinding ▶ Washing ▶ Sorting ▶  
Logistics ▶ Inspection ▶ Domestic Logistics ▶ Packaging into small packs ▶ Delivery/Management

## ISO 9001 & 22000 certified

International standard quality management system certified

Certification received from SGS indicates a globally recognized product that complies with International Standard (ISO) procedures.

“It’s even more delicious when you enjoy it alone as a snack or with food like rice!”

A gift from Wando,  
an island of uncontaminated waters and health

## Cleopatra Salt Seasoned Seaweed

The clean sea of Wando is a paradise for healthy seaweed that is recognized around the world. We introduce the best taste and quality achieved by combining clean seaweed and clean salt.

Introducing Cleopatra Salt Seasoned Seaweed.

### Cleopatra Salt Seasoned Seaweed Original/Pollack Roe Flavor/Shrimp Anchovy Flavor

Cleopatra Salt Seasoned Seaweed is made with seaweed from clean Wando seasoned only with Cleopatra salt, so it contains no artificial sweeteners, giving us healthy and rich flavors. It has a higher content of seaweed raw material than regular seaweed, richly capturing the natural taste of seaweed. We offer a variety of flavors for you to choose from, including original seaweed based on savory, sweet and salty flavors, cod roe flavored seaweed with a chewy texture, and shrimp anchovy flavored seaweed with a rich fresh ocean scent. We are ready. Cleopatra Salt Seaweed is great to enjoy not only as a side dish for rice but also as a side dish for drinks.

A gift from Wando,

## Wando Local Food Gimbap Seaweed

The clean sea of Wando is a paradise for healthy seaweed that is recognized around the world.  
We introduce the best taste and quality achieved by combining clean seaweed and clean salt.

It is made from seaweed from the clean waters of Wando.

### Daehan Trading Roasted Gimbap Seaweed

Eco-friendly seaweed made healthier using only the power of nature. This is the highest quality raw seaweed product from the clean and clear waters of Wando.

It is a healthier, eco-friendly raw material grown only with sunlight and wind in designated farms without using artificial chemicals or nutrients during the farming process. It is roasted twice so it doesn't burst easily when making kimbap.

**“This is a healthy and delicious product that can be enjoyed as a snack for children or as a snack for adults!”**

### Production facilities

## Hygienic and systematic production facilities

Daehan Trading selects fresh organic marine products from Wando and sells products developed/processed directly at certified production facilities. Take a look at the various products produced under a clean and systematic production process.

### Organic certification (USDA)

Our food is manufactured, processed and distributed using organic marine products as raw materials and ingredients through eco-friendly fishing.

### Safe and reliable Ministry of Food and Drug Safety HACCP certification

Made in a HACCP certified manufacturing facility that has received strict certification from the Ministry of Food and Drug Safety.

### Food Safety Management System Certification

Our manufacturing facility is certified for the stages from raw material production, manufacturing, processing, preservation, distribution, and before consumption by consumers.

### Various certificates we have

Daehan Trading promises to do its best to provide customers with clean and delicious food through continuous research and development.

We produce all products under systematic and hygienic management in HACCP certified manufacturing facilities.

We are working to create safe, proper food and a healthy and honest food culture.

We will invest generously in the latest equipment and do our best to produce clean and safe food through thorough hygiene management.

## Organic

# Organic marine products, safe from the start!

Daehan Trading produces safe, eco-friendly food with several times more effort and sacrifice than existing methods.

Organic marine products go through the hands of fishermen from beginning to end. We contribute to the income of fishermen by purchasing all of the fish they produce at a higher price than before through exclusive contracts.

All of our workshops are certified for organic production and processing and produce products safely and cleanly.

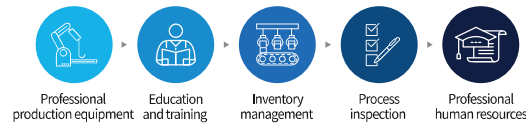

## Circulation system

# Systematic and continuous management system

## Meticulous and safe distribution system

All products are produced under a systematic management system divided into five major areas. By deploying specialized personnel for each field, we are able to manage products more thoroughly and meticulously.

- 01 Hygiene is carefully managed by storing in sanitary facilities until just before shipment.
- 02 When a product is shipped, it is delivered more quickly and freshly through direct delivery as well as cargo and courier delivery to all parts of the country.
- 03 We strive to always provide fresh products by minimizing inventory and customizing production as needed.

01

## Efforts starting from the sea

Products are selected by hand without any additional chemical treatment to make them eco-friendly and safe.

02

## Fresh water washing before drying

Instead of drying immediately after collection, organic kelp is washed with fresh water on the surface and then dried.

03

## Work in a clean facility

Work in a organic processing facility-certified clean indoor drying facility

04

## Safe drying

Safe from external contamination in a sealed indoor drying room

Particle sorter

Filling machine

Metal detector

## Safe food

# Safe food powder product

Our current grinder, the Ultra Fine Air Classifier Mill (ACM), is an airflow type ultra-fine grinder that performs grinding and classification simultaneously.

The principle of grinding is that ultra-fine pulverization is achieved without a particle size screen inside the pulverizer at a linear speed (110 m/s) using air currents and gravity, and is safe as there is no metal powder generated.

## Special strategy

We provide both food safety and security of supply.

The power of Wando reaching across the world

## Achievements of Daehan Trading Co., Ltd.

Daehan Trading Co., Ltd. delivers treasures from Korea and Wando to countries around the world, including Vietnam, Laos, Taiwan, Cambodia, Australia, and Spain. We are researching and working every day to create healthier and tastier products.

Daehan Trading Co., Ltd. and Wando meet the world

### We strive to produce delicious and healthy products.

Daehan Trading Co., Ltd. always insists on only the best. We develop the best products by considering and selecting tastier seaweed and healthier raw materials. Daehan Trading introduced Cleopatra Salt to enable people around the world to experience healthy flavor. Gifts from the clean sea of Wando and the clean areas of the Sahara Desert and Oasis guarantee a taste and quality that no one can imitate. We strive to meet consumers' preferences by introducing a variety of product lines such as lunch box seaweed, seaweed chips, and seasoned seaweed to consumers.

### We deliver our values to people around the world.

Daehan C&T Co., Ltd. is spreading our health and taste to people around the world. We meet buyers through various international fairs such as Seoul Food Expo and Busan International Fisheries Expo. Our products are recognized around the world for their excellent taste and quality and are exported to many countries. People from many countries, regardless of gender or age, are expressing their interest in anticipation of meeting Cleopatra Salt and the wonderful raw seaweed of the Wando Sea.
