

BABY SWISS

NATURAL CHEESE

Made with Local Milk

NO ARTIFICIAL Growth Hormones*

Passionate Cheesemakers

Since 1938

Our premium Baby Swiss cheese is characterized by numerous small, shiny eyes and an exceptionally creamy texture. It is an excellent choice for those who prefer a mild-flavored cheese and does not contain artificial colors, flavors, or preservatives.

Within the Alpine Collection we also offer a grass-fed variety of Baby Swiss that owes its unique flavor to lush pasture grazing. Made at our Shullsburg, Wisconsin facility, these cheeses are crafted using milk from cows raised on a grass fed diet. Through the seasons, the composition of the milk changes, resulting in subtle flavor variances throughout the year.

To meet our customers' expectations, our award-winning Baby Swiss goes through strict quality controls before shipping. It is proudly made in Luana, Iowa and Shullsburg, Wisconsin.

Prairie Farms cheesemakers are the best in the industry and our reputation for quality is recognized at state, national and regional contests year after year.

BABY SWISS *Alpine Collection*

- Adds flavor to a variety of deli sandwiches and wraps
- Great for melting over vegetables or in a grilled cheese sandwich

| Loaf | 6,2 | 12 lb |

*The FDA has determined that no significant difference has been shown between milk derived from artificial growth hormone treated and non-artificial growth hormone treated cows.

Since our founding in 1938, Prairie Farms has always been owned by dairy farmers. The high-quality milk produced on our farms is sent to our farmer-owned facilities for production and packaging.

We are 100% in control of the farm-to-table cycle.
