The VeggieFox MODULAR INGREDIENT SYSTEM

.....
Individually usable single modules

VeggieFox Seasoning	VeggieFox Binder	VeggieFox Texture
FUCHS Top seasonings	FoxMaro® Marinades	FUCHS Breadcrumb coatings

All-In-One combination solution

VeggieFox is suitable for many applications, for example, the individual use or in a combined solution with other FUCHS products: No matter if it's patties, fried grated potatoes, Schnitzel, rissoles, burgers, nuggets, cold cuts, sausages or Cordon Bleu - all this and more can be created with ease. The broad variety of top seasonings, marinades, breadcrumb coatings or vegetables offers nearly unlimited product individualization possibilities. Try it for yourself.

ADVANTAGES AT A GLANCE

.....

- if desired with a meat-like texture
- highly versatile and excellent sensory characteristics
- can be used flexibly, as an All-In-One or individual solution (modular system)
- can be combined with FUCHS top seasonings and FUCHS FoxMaro® (marinades)
- freeze and thaw-stabil (MAP* and deep-freeze suitable)
- easy to use (add water + oil)

* MAP = Modified Atmosphere Packaging

pourable

VeggieFox

FOR VEGETARIAN,
MEAT-LIKE PRODUCTS

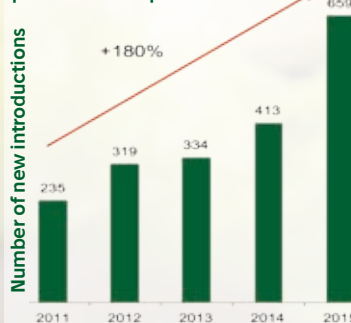

COMPLETELY VEGGIE - ABSOLUTELY TRENDY

Veggie is what everyone is talking about, and also expresses the desire of many consumers for a greater variety in their diet. In addition to absolute vegetarians, many "flexitarians" are also turning to meat-free products. Meat-like products such as vegetarian Schnitzel, rissoles or nuggets are particularly high in demand. The number of consumers who purchase vegetarian cold cuts, patties, sausages and burgers is also on the rise. With VeggieFox, you'll be able to create these and other vegetarian products quite easily. The VeggieFox product range from FUCHS is designed according to a modular principle, and combinable with many other FUCHS products: Seasoning + binder + texture + top seasoning or marinade or breadcrumb coating. All components are also available separately, thus providing you with a broad application flexibility.

Conveniently create delicacies with VeggieFox, for example, for deep-freeze or MAP packaging. VeggieFox is pourable and can thus be dosed easily, and it's also simple to use - just add water and oil.
