

# CHECKWEIGHERS

## 100% PRODUCTION FLOW IN-LINE CHECK

## ▼ CKW 410

Offers essential assets for dynamic weighing, prepackaged product check and missing product detection.

- ▼ Small sized.  
Various interfacing options with the handling line.
- ▼ No prominent part in motion.  
Compliant with EMC, low voltage and machine directives.
- ▼ Large framework.  
Mounted on 4 load cells.
- ▼ Works autonomously or monitored by the client's PLC via most current field buses.

Option: PC supervision panel

**Reject devices:** to be chosen in accordance with the features of the product and the configuration of the handling line.

Diverting arm

Air blow

## ▼ CKW 710

Especially designed for fast-paced weighing in the hygiene and safety conditions required by the food industry.

- ▼ Accredited for the regulatory check of prepackaged products.
- ▼ Detection of metal particles.
- ▼ Rejection and secured disposal of non-compliant products.
- ▼ Works autonomously or in connection with the client's PC network.
