#### Our vision

Our vision is to create a healthier lifestyle for all generations. We believe everyone should be able to start making the right choice for their health, the sooner, the better.

### Our value

We believe that to have good quality in life, you need to be happy & healthy. We value health quality, wellness, and satisfaction. We make sure that we offer our customers a better lifestyle, and of course, betterhealth.

### Mission

- To "Strive" for a change in lifestyle choices.
- To "Focus" on product standardization and quality of resources.
- · To "Share" ways to maintain a healthy living.

# **KOMBUCHA**

# Fermenthé Kombucha Sparkling

# PURELAMOON Kombucha Gold Serum (Facial Treatment Serum)

Fermenthé
T-Revive
(White Tea)

# Herbal Candy (Sugar Free with stevia)

# THAI HERBS

# Fermenthé Kombucha

**Fermenthé Kombucha** is known as a sparkling fermented tea (with a Postbiotic culture of bacteria and yeast) and a hint of honey that is easy to consume, flavourful, and of course, beneficial! Furthermore, it is also considered as a functional beverage that contains high-quality black tea, green tea, oolong tea, as well as premium honey.

We pay attention to all of the processes from the beginning to the end. That is from the method of cultivation and harvest to an application of flavour with standardized production. Along with well-supported scientific data, research, and knowledge of experts who have been involved in the tea industry that was established over 100 years ago.

### Fermenthé is full of beneficial organic acids such as

### **EGCG**: (Epigallocatechin Gallate)

Enhance Immune system, Anti-inflammatory, Antioxidants

DSL: (D-Saccharic acid-1, 4-lactone)

detoxification, powerful antioxidants and anticancer potential

**Theaflavin:** Boosting your immune system

Gluconic Acid: Helping to increase antioxidants

# How are we <u>different</u> from a homemade Kombucha?

- Standardized production has been certificate by
  - FDA (Food and Drug Administration)
  - GMP (Good Manufacturing Practice)
  - GHPs (Good Hygiene Practices)
  - BRCGS (British Retail Consortium Global Standard)
  - HACCP (Hazard Analysis and Critical Control Point System)
  - HALAL (The Islamic Committee Office of Thailand
- Low risk of harmful bacteria contamination
- Taste and concentration consistency in each bottle
- Can be preserved for 2 years

# **HOW TO DRINK (?)**

Fermenthé Kombucha

- Once or twice a day (one bottle at a time)
- Can be kept at room temperature but taste better when it's cold!
- Shake well before consuming (to mix natural ingredients from tea leaf)

# Fermenthé Kombucha Sparkling

**Ingredients**: Carbonated water, Concentrate Kombucha

Sugar Free with Stevia

# Fermenthé Kombucha

# Fermenthé Kombucha

**Fermenthé** are full of healthy benefits mainly from tea leaves that are rich in polyphenol and many different organic acids from the process of tea fermentation over a period of 30 days. It is not only convenient to carry, but packed with a decent amount of healthy ingredients that are low-calorie and low-caffeine for all generations to consume.

#### STANDARDIZED PRODUCTION

**Fermenthé** is produced by selectively hand-picking tea leaves that are rich in polyphenols. It is not only to increase benefits but also to the flavours. Furthermore, we are proud to say that our tea leaves are harvested from many tea-plantation communities in Chiangmai, Thailand since tea leaves grow best in higher altitudes or on a hill slope. By selecting sustainable resources from a local community, it is not just helping the community to continue their traditional lifestyle that was passed down from generation to generation but also helping to maintain a good local ecosystem as well.

#### STANDARDIZED PRODUCTION

All of our products have standardized production since our factory is certified with HazardAnalysis and Critical Control Points (HACCP) and Good Manufacturing Practice (GMP). Additionally, our product is **FDA certified** [ 50-206 656-6-0034 (Original) and 50-2-06656-6-0035 (Light) ]. [ 50-2-05651-6-0087 (T-Revive) ] **Halal certificate** [ CICOT.HL.93 M246 001 02 64 (Original) ] and [ CICOT.HL.93 M246 002 02 64 (Light) ] [ CICOT.HL.93 M244 001 02 64 (T-Revive) ]

For the utmost benefits, we have carefully selected the bacteria culture from our scientific laboratory that is suitable to use in our tea fermentation and measure temperature to ensure that Fermenthe is not contaminated with harmful bacteria.

#### **EXAMPLE OF OUR RESEARCH AND SCIENTIFIC DATA**

International Journal of Tea Science Volume 11 Issue 1&2 Year 2015

• Efficacy of Kombucha Obtained from Green Oolong and Black Teas on Inhibition of Pathogenic Bacteria, Antioxidation, and Toxicity on Colorectal Cancer Cell Line by Thida Kaewkod, Sakunnee Boonsombut, and Yingmanee Tragoolpua

# Fermenthé Kombucha

Fermenthé Kombucha has received numerous awards for taste and produce quality.

**Fermenthé Kombucha** Original and Fermenthé Kombucha Light received the Innovation Taste Winner Award from THAIFEX-Anuga 2022; the Reader's Vote Natural Drink Award from Cheevachit Magazine in 2021; and the Thai Public Health Ministry's Premium Herbel Products Award.

**Fermenthe Kombucha Sparkling** was chosen as a sugar-free sparkling health drink that contains beneficial ingredients. It was selected as a "Product Selection for SIAL Innovation Award 2024" Montreal, Canada.

# Ingredients

SACCHAROMYCES/XYLINUM / BLACK TEA FERMENT KOMBUCHA

GOLD 24K

COLLAGEN

CAMELLIA SINENSIS LEAF EXTRACT

CENTELLA ASIATICA LEAF EXTRACT

CURCUMA LONGA ROOT EXTRACT

ASCORBIC ACID

TOCOPHERYL ACETATE

### Benefit

- Reduce degeneration cell on your skin with Kombucha and Green
  Tea Extract
- Reduce wrinkles and Black spot with Centella Asiatica Leaf Extract and Kombucha
- Keep skin moisturized and clear with Curcuma Longa Root Extract, Collagen and Vitamin C
- Protect Skin from pollutants PM2.5; Sun Radiation and Blue light with Kombucha and Vitamin E

# Fermenthé T-Revive

(White Tea)

Fermenthé T-Revive is a tea made from white tea, green tea, and also eight of the beneficial Thai herbs including Mulberry, Pandan, Jiaogulan Safflower, Chrysanthemum, Chamomile, Ling Zhi and Indian Gooseberry. Not only having a pleasant aroma, these different herbs may help to significantly enhance the benefits of the tea as well.

Put one tea bag into a cup. Then add in just enough hot water to cover the tea bag. Wait for 10 seconds. Then pour out the hot water. This would decaffeinate the tea.

Fill the cup containing the tea bag with hot water. Let stand for about 2-3 minutes.

Remove the teabag and enjoy your perfect cup of decaffeinated Tea-Revive. Alternatively, you could put the tea in a vacuum flask or refrigerate it to drink later.

**EGCG**: Tea polyphenols; epicatechin (EC), epigallocatechin (EGC), epicatechin gallate (ECG), and epigallocatechin gallate (EGCG). ECG and EGCG can inhibit kinase, methylase, and acetylase activity, which are essential in controlling processes related to tumour development in cells with DNA damage, such as those caused by oxidants. Another activity of tea components is their involvement in the initial, developmental, and progressive stages of cancerous diseases.

# LUCKYIM
