

# Superfoods Innovation Company

## Company History

Noppada Superfoods Co., Ltd. and Noppada Group companies were established in 2016 by Mr. Noppada Atikakamphu and his family. He represents the third generation in the garlic business, which has been established for 40 years. He and his team are trailblazers, being the very first to adapt and enhance technologies and innovations suitable for Thai black garlic production. Presently, under the company's core value of "Relation for Long Live Together," we are not only innovating Thai black garlic but also simplifying and innovating superfood products to foster meaningful life experiences and relations.

## Certificate & Standardized

Noppada Superfoods Co., Ltd. prioritizes production standards and quality, adhering to clean and safe manufacturing practices according to GHPs and HACCP. The company has also been certified by USDA Organic, EU Organic, and Halal, affirming its commitment to strict agricultural practices and religious standards. These certifications guarantee that every product is environmentally friendly and respects the cultural and religious diversity of consumers.

# Main Product Black Garlic

Black garlic boasts a rich history in Asian herbal medicine, particularly in Japan, Korea, and China, where it has been consumed for centuries. We source our black garlic from contract farmers who cultivate single-clove garlic under strict GAP standards. Through our unique incubation process, free of any chemicals, the garlic undergoes a remarkable transformation. The pungent bite of raw garlic mellows into a naturally sweet and jelly-like texture, reminiscent of dried fruit. But this isn't just a taste improvement! The process also enhances and stabilizes the garlic's key active ingredients, making it a true superfood.

## Fresh garlic from farm to our Black Garlic

## Active Ingredient of Black Garlic

- 1 S-allylcysteine**  
antioxidant, anti-apoptotic, anti-inflammatory, anti-obesity, cardioprotective, neuroprotective, and hepatoprotective activities. May improve heart and circulatory system include blood pressure, lipid profile and glucose level.
- 2 Polyphenol**  
antioxidant and anti-inflammatory properties helps protect human body against oxidative stress and reduce risk of chronic diseases.
- 3 Melanoidins**  
antioxidant and antimicrobial properties potentially helps protect cells from damage caused by free radicals.
- 4 Amino acids**  
Tryptophan (Supports mood, energy metabolism, and DNA protection), Histidine(supports growth and repairs damaged tissue), Valine (enhances muscle growth and balance hormone), Glycine (supports heart and liver health and improves sleep), Arginine (lowering blood pressure) and Aspartic acid (improve muscle strength and immune system).

## Health Benefit of Black Garlic

- Improve glutathione antioxidant system
- Help blood profile: Glucose, Serum Cholesterol, Triglyceride, LDL
- Helps anti-inflammatory and antioxidant caused cell death.
- Protect Liver, kidney, and nerve system injury

# B-Garlic Brand

The first product developed by Noppada Superfoods Co., Ltd., Black Garlic under the brand B-Garlic, was introduced in 2016. This innovative product quickly gained popularity and has continued to be a favorite among consumers to the present day. B-Garlic stands out for its health benefits and unique taste, distinguishing it from traditional garlic products. Its success reflects the company's commitment to quality and innovation in developing health-oriented food products.

**NOPPHADA  
SEASONING**  
COMPANY LIMITED

## Nopphada Seasoning

Nopphada Seasoning Co., Ltd., was established in 2021 and specializes in the manufacturing and distribution of agricultural products. Our products include dried and powdered seasoning spices and herbs, which are manufactured using modern technology and machines. Our primary focus is on maintaining good hygienic practices during production to ensure we deliver the best quality and safest products. Our products are used not only for home cooking and restaurants but also by food manufacturing companies.

## Standard Quality

We are committed to selecting high-quality, standard raw materials processed in a factory that adheres to international standards such as GHP, HACCP, and HALAL.

In addition, our staff are trained in good manufacturing practices standards, ensuring every step of our production process is clean and safe.

## Local Ingredient World Quality

With over 50 years of experience in the garlic company, passed down from our grandfather's generation until now, we have supplied garlic to food factories and wholesale and retail markets. As the third generation, we have expanded the business to include the manufacturing and importing dried agricultural products and powders, starting with dried garlic cloves, slices, and powder.

Our company's commitment is to consistency and honesty, promptly producing and supplying products to meet customer needs. We also specialize in developing products according to customer-specific formulas, supported by research and development experts team.

Our objective is to be a reliable partner in sourcing and producing dried agricultural products and powders, delivering the highest quality products to our customers at competitive prices.

"Quality standards of production is our core commitment." We are both a manufacturer and importer of dried agricultural products and powders. Focus on each production step-by-step, ensuring the highest quality of our products. The main product is garlic powder, which is produced according to factory standard and customer requirements.
