

ONLINE ORDERING

24/7 Access, Ordering, and Results

Eurofins is testing for life, which demands a commitment to moving at the speed of business. Eurofins Online, or EOL, is an innovative ordering and reporting platform designed to allow customers instant access to results. When you use EOL, your pre-registered samples move through sample registration quickly and get into the lab faster than traditional orders. It's the easiest and most cost-effective way for any producer to see results faster!

Data and Process Control

- Submit orders and review data online in real-time
- Follow samples through the testing process
- View validated reports instantly
- Automatically repeat frequent orders
- Coordinate quality testing across sites or teams
- Customize reports
- Develop product lists with assigned tests for ease and flexibility of ordering

“ *Its very simple to use, and I like being able to see past results listed.*
