

BOGAWANTALAWA
CLIMATE POSITIVE AND BEYOND

The World's First Climate Positive Teas

Introduction

We are Passionate Growers with Sustainability at Heart

Bogawantalawa Teas is dedicated to cultivating and manufacturing **the world's most sustainable Climate Positive Teas.**

Through each step in the manufacturing process, we ensure that our teas are sourced directly **from our own estates**, delivering the highest quality.

We combine generations of growing expertise with cutting-edge sustainability practices to deliver an exceptional cup of tea. As **a total value chain partner**, we manage every step from planting and harvesting to blending, sampling, and packaging ensuring unparalleled quality and transparency throughout the entire process.

The Golden Valley of Ceylon Tea

Our Legacy

Since 1869, Bogawantalawa has been more than just a tea producer. We are passionate growers, deeply rooted in the Golden Valley of Ceylon. Our legacy is built on a commitment to excellence in tea cultivation, leveraging our unique terroir and strategic location to produce teas of unmatched quality.

The Perfect Terroir

Our estates thrive in ideal microclimatic conditions, with the perfect balance of elevation, climate, and soil. These factors work in harmony to create the unique and distinctive flavour profiles that set our teas apart.

Nurturing Nature

Sustainability is the soul of everything we do. Our dedication to regenerative agriculture means that we don't just protect the land, we nurture it, allowing it to thrive and flourish. This deep, unwavering commitment to the Earth is what has made us the **World's First Climate Positive Tea Company**, and it's a promise we make to future generations to leave the world better than we found it.

Community & Culture in the Golden Valley

At Bogawantalawa, our commitment extends beyond environmental stewardship to uplifting the lives of our tea harvesters. We ensure fair wages, safe working conditions, and opportunities for community development. This holistic approach guarantees that our teas are not only exceptional in flavor but also produced in a way that enriches the lives of those who cultivate them.

Certified Climate Positive, Rainforest Alliance, and Fairtrade, our teas resonate with consumers who value ethical sourcing and environmental responsibility. Each cup reflects our dedication to sustainability, offering superior taste while benefiting the planet and its people.

For nearly two decades, through the Lanka Mother and Child Support Foundation (LMCSF), we have supported vulnerable mothers, children, and differently-abled individuals with essential therapy, medical care, and educational support. Partnering with leading NGOs, we champion childcare, maternity care, and fair work practices to uplift lives and create a brighter future.

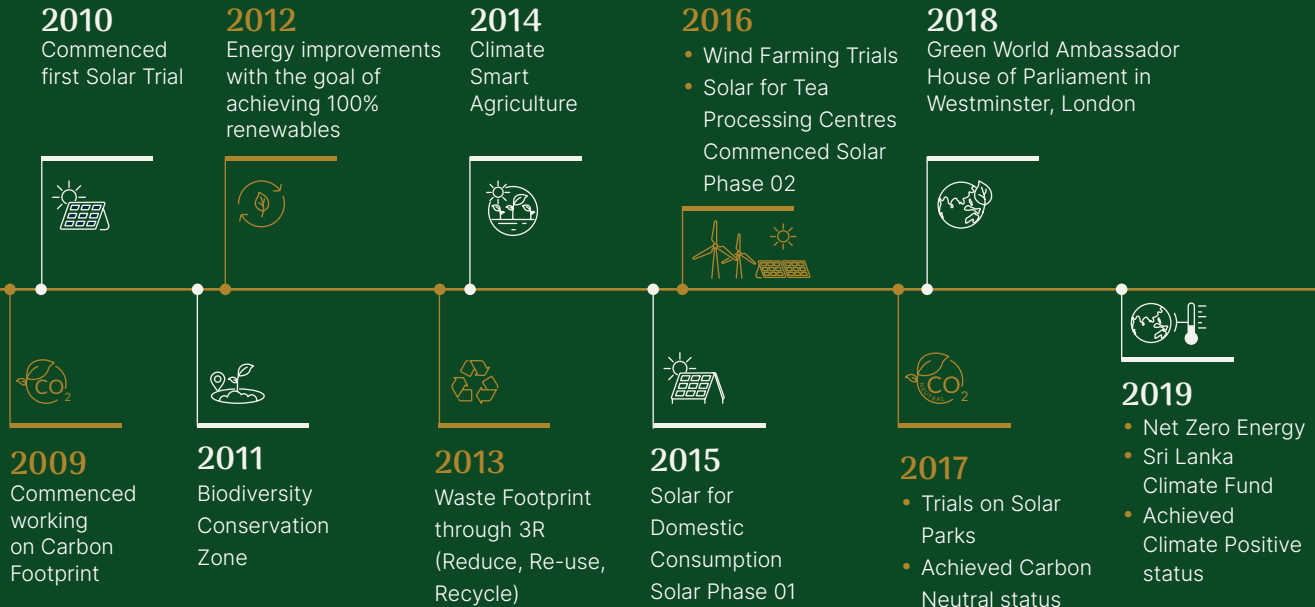

Leading Beyond 2030: Setting the New Standard for Climate Positive Excellence

Our dedication to being Climate Positive goes beyond simply achieving net-zero emissions. We have surpassed the UN SDG 2030 goals. We are committed to practices that not only maintain but also restore and enrich the environment, setting a new benchmark for true planetary stewardship

Our Carbon Footprint Milestones

Leading in Sustainability

At Bogawantalawa, we lead the way in sustainability as the world's first climate-positive tea company, absorbing more carbon than we emit. With 45 impact drivers and 135 KPIs, our Climate Smart Agricultural Center drives continuous innovation, ensuring our farming practices benefit both the environment and future generations.

Regenerative & Climate-Smart Agriculture

Our practices include soil development, biofertilizers, biodynamic farming, and climate-smart agriculture to restore soil health, enhance biodiversity, and reduce our environmental footprint.

We have planted over 500,000 trees as part of our reforestation efforts and use renewable energy to power our operations.

Biodiversity & Conservation

We prioritize biodiversity preservation and eco-friendly techniques such as water conservation and sustainable land use to ensure our farming is in harmony with the environment.

Expanding Beyond Tea

In addition to our premium teas we cultivate herbals and spices such as ginger, turmeric, cinnamon, cardamom, vanilla, and cloves, all grown with the same dedication to sustainability and quality.

Unmatched Quality

Traceability From Estate to Cup

Our teas offer complete traceability, guaranteeing transparency and the highest assurance of quality. Every leaf can be traced back to our estates, ensuring the purity and authenticity of every cup.

Single Estate Teas

We pioneered the concept of Single Estate (unblended) Teas, with Kotiyagala and Bogawana being prime examples. Our unparalleled tea leaves are uniquely distinguished by their exceptional quality, character, flavour, and aroma.

In addition to our commitment to consistency and authenticity, we offer the finest high-grown Ceylon Teas. These Climate Positive Teas are sourced directly from our very own plantations in the Golden Valley of Ceylon.

Our Estates

Our very own plantations

Bogawantalawa Teas cultivate and harvest over 50 million tea bushes in 11 plantations in the Bogawantalawa region, better known as the Golden Valley of Ceylon (elevation 4,000 – 6,000 feet above mean sea level).

Our Achievements

Tea Blending & Infusions Expertise

Mastery of the Craft of Tea

At Bogawantalawa, we excel in the art of tea sampling, blending, and crafting bespoke infusions. Our tea master meticulously create each blend to capture the true essence of the finest teas from our estates in the Golden Valley, ensuring exceptional flavour and quality in every cup.

Tea Sampling & Blending

We meticulously select and blend teas to create distinct, signature flavours. Each batch is carefully curated to embody the richness and character of Ceylon tea, ensuring consistency in taste and quality.

Custom Infusions

Our expertise extends to crafting innovative, custom infusions that are designed to delight even the most discerning palates. From classic blends to unique flavour combinations, we offer a wide variety of options to suit every preference.

Each cup of Bogawantalawa Tea embodies our dedication to regenerative agriculture, fair treatment of our communities, and preserving the environment for future generations. Our teas are not just products; they are a testament to our sustainable practices and responsible stewardship of the land.

Our Range

Bogawantalawa Limited Edition

Perfect for those seeking both refinement and sustainability, this range represents the ultimate in luxury tea. This exclusive collection features handpicked leaves from the Golden Valley, cultivated through climate-positive practices. Crafted with precision it offers a rare, eco-conscious tea experience blending exceptional quality with a deep commitment to the environment.

Bogawantalawa Organic Range

Sourced directly from our carefully managed estates in the Golden Valley, this exclusive collection of organic teas meets the highest expectations of quality and purity. Ideal for discerning customers who value premium, meticulously crafted organic teas, it offers a unique and unparalleled taste experience that's unforgettable.

Bogawantalawa HORECA Range

The Bogawantalawa HORECA Range is crafted to enhance the tea experience in upscale hospitality settings. This premium collection provides consistently high-quality teas with exceptional flavour ideal for discerning hotels, fine dining restaurants, and premium cafes. Our HORECA range guarantees a tea experience that complements and elevates your guests' dining moments.

Bogawantalawa All Naturals

Celebrating the essence of purity with teas crafted from 100% natural ingredients, each blend in this collection delivers an authentic, unadulterated tea experience. Packaged in elegant, eco-conscious materials, this range offers a premium choice that combines exquisite natural flavours with refined presentation.

Bogawantalawa Secret Garden

Our Secret Garden range offers the world's freshest tea, handpicked from the Golden Valley and dispatched within 3 working-days of plucking and production. This exclusive service ensures unmatched freshness and flavour, providing an ultimate tea experience straight from the estate to your cup. It is truly the freshest tealeaf available anywhere in the world.

The World of Bogawantalawa Tea

TWT offers the finest, selected best and seasonal teas from worlds lush tea gardens curated by our expert tea masters of the golden valley to savory an exquisite Artisanal brew for tea connoisseurs and sommeliers who crave nothing but the Finest. Each Artisanal Cup embodies the Art and Mastery of Tea making. It is the perfect choice for designer gifting and glamorous moments.

Our Brand Partnerships

At Bogawantalawa, we **harvest premium teas from the Golden Valley of Ceylon**, offering bespoke solutions to meet unique needs. Our commitment to quality and sustainability extends through our tailored brand partnerships, ensuring that every product reflects our dedication to excellence and innovation.

With our extensive expertise and capacity, we fulfill any tea requirement worldwide. As a **total value chain partner**, we manage every aspect of production with precision, from cultivation to packaging, ensuring a seamless and exceptional experience for our partners.

Who We Are and What We Aspire to be

We Are

passionate growers leading the way in sustainability by raising the bar continuously. Each microclimatic region in the valley contributes to crafting teas since 1869 each with its unique exquisite characteristics and dedicated to bring this goodness that will be sought after by discerning consumers who value sustainability.

We Aspire

to revitalize people's daily lives with the finest teas and infusions from the unique terroir of the Bogawantalawa valley.

Our Values

Trust

The foundation of all our interactions. We empower our employees and build long-term partnerships with customers based on transparency and integrity.

Commitment

We are driven to achieve our goals with a stringent commitment to producing truly sustainable teas of the finest quality.

Teamwork

Our success is built on unity, where diverse talents and backgrounds come together to achieve a common goal.

Most Sustainable Teas in the World

Our Group of Companies
