It all starts from our **Lucky Alvin** jar, inside which you'll find our core, hand-picked ingredients, coming from certified suppliers. The first thing you'll notice is the high-quality, robust taste of our product. We purposely eliminate additives and all the unnecessary ingredients, such as extra oils, salt or sugar, in order to provide you with the healthiest nut butter possible.

**Our priority** is to preserve the food naturally and in its purest form possible, so that our bodies may benefit from it at any age.

**Lucky Alvin** has a unique formula and composition. Our core ingredient are dry-roasted nuts of high quality. For an extra sweetness, we add chocolate from a Belgian chocolatier that our customers will certainly appreciate.

# Flexible and Customizable Packaging

Lucky Alvin is available in a wide range of packages, from 90 g up to 20 kg.

Whether you need elegant glass packs, practical resealable pouch bags or sturdy plastic gastro packs, we have the solution.
