SANTOS PREMIUM KRIMER

Almost 20 years of experience have enabled us to become market leaders in Indonesia's Creamer Industry. Equipped and supported by modern technology, a large production capacity, and supported by competent human resources, we consistently produce high-quality creamer.

# THE JOURNEY OF CREAMER EXCELLENCE

Driven by the aspiration to excel in the industry, PT. Santos Premium Krimer is always dedicated to produce high-quality creamer for your satisfaction. Skillful and innovative material processing, supported by the latest European production machinery, set our products as the preferred choice.

## MILESTONE

### SPRAY-DRYER

Spray-dryer technology is the key to producing our premium creamer instantly by using high temperature air. Product safety and quality are continuously guaranteed with precise, hygienic, and sustainable processes.

### PILOT-PLANT RESEARCH FACILITY

A small-scale production unit is provided to facilitate our R&D Team in doing continuous innovation and development.

### ADVANCED LABORATORY

Our laboratory conducts comprehensive tests using international standards from microbiology to sensory evaluations as our commitment on quality assurance.

### SEAMLESS PACKING FACILITY

Our packing facilities run continuously to ensure our products are well-packaged and safely distributed.

## NON-DAIRY CREAMER

Known as coffee whiteners, Non-Dairy Creamer (NDC) is used as a milk substitute, but now gaining popularity as an ingredient as other beverages ingredient as well as in other food applications.

**Description:** instantly soluble creamer powder with a creamy white color for excellent whitening properties. Provide milky flavor with a creamy taste, suitable for food and beverages.

**Ingredients:** glucose syrup, vegetable fat, milk protein, stabilizer, emulsifier, free flowing agent.

**Packaging:** 25 kgs in multiwall paperbag with poly-innerliner.

**Shelf life:** 18 months stored at ambient temperature.
