COFFEE BEANS FROM AROUND THE WORLD

Coffee is more than just a brewed beverage; it's a journey of flavor and aroma, crafted from the roasted seeds of the *Coffea* plant. These seeds are nestled within vibrant coffee "cherries," which flourish on trees across over 70 countries, primarily in the lush, equatorial regions of Latin America, Southeast Asia, India, and Africa. As one of the most traded agricultural commodities globally, green (unroasted) coffee represents a vital connection between cultures and economies.

With its characteristic slight acidity and energizing caffeine content, coffee is a beloved drink enjoyed by millions. Among the over 40 varieties of *Coffea*, two stand out for their exceptional quality: *Coffea Arabica* and *Coffea Robusta*. Worldwide consumption reflects this preference, with Arabica making up about 70% and Robusta 30%.

Once the coffee berries reach their peak ripeness, they are carefully picked, processed, and dried, setting the stage for the exquisite brews that await. Each cup tells a story of its origin, reflecting the unique landscapes and traditions of coffee-growing regions around the globe.

Coffee is a delightful brewed beverage known for its rich aroma and captivating flavor, crafted from the roasted seeds of the *Coffea* plant. These precious seeds are nestled within vibrant coffee "cherries," which flourish on trees cultivated in over 70 countries around the world.

ROASTED COFFEE BEANS

Roasting is an art—a transformative heating process that turns green beans into fragrant, aromatic coffee. It is during this critical stage that the desired taste and aroma come to life, a craft honed over years of dedicated training. At Royal Armenia, we pride ourselves on offering only freshly roasted coffee, delivering a sense of vigor and vitality with every cup. Our medium-roasted RA 100% Arabica premium variety showcases a unique flavor profile, crafted from a carefully selected blend of Brazilian and Mexican Arabica beans. Each sip reveals a rich fullness, complemented by moderate acidity and sweet notes of dried spices. Our medium-roasted RA coffee blend RA Arabica and Robusta, featuring a harmonious mix of Arabica and Robusta beans, offers a bold and invigorating flavor that sets it apart. Each sip delivers a unique taste experience, crafted from carefully selected roasted beans that combine the smooth, rich characteristics of Arabica with the robust intensity of Robusta.
