# Fewer Cracked Eggs. More Profit.

For commercial egg operations facing tighter margins, CracklessEgg is the eggshell sensor turning downgrades and breakage loss back into profit. Operations using CracklessEgg can expect to improve breakage rates by a minimum of 1-4%.

CracklessEgg egg app shows exactly where impact damage is happening - from laying box through cleaning, grading and packaging. Take action by fixing mechanical issues, protecting your revenue and profitability with CracklessEgg.

- ✓ Enhanced Egg Quality and Bottom Line
- ✓ On-the-Spot Problem-Solving
- ✓ Calibrate Your Equipment for Better Egg Handling

#### Key Features:

- Includes an easy to use mobile app anyone can use
- Real time data streaming for quick problem solving
- Weight balanced to imitate chicken eggs
- Heat and water resistant to work anywhere on the farm

# Stop Guessing, Start Saving:

## Real-Time Data to Protect Your Eggs

### Impact Monitoring & Tracking

Improve how you and your teams tackle maintenance management and track issues. The easy to use app includes built-in tools to add notes, photos, and videos to events.

### Optimize Performance

Optimize egg production and boost profits by reducing downgrades, mechanical stress, improving quality, preventing egg loss, and minimizing complaints.

### Enhanced Handling Practices

Preserve egg quality by reducing cracks throughout the handling process. Use the app to get a visual red, green or yellow G-Force measurement of all critical points during handling.

### Training and Education

Equip your team with data-driven insights to improve handling practices, ensuring consistent results and minimizing cracks from coup to customer.
