# About our Company

LLC FIRM «OLIS LTD» is one of the largest enterprises in Ukraine producing mayonnaise, ketchup, mustard, sauces and sunflower oil for its own trademarks «OLIS», «GUSTÓ» and «National Ukrainian Traditions». Our products are fully certified, meet international quality standards, and have excellent quality and taste.

## Time-tested taste and quality

Mayonnaise by TM «OLIS» appeared on the shelves of Ukrainian stores in 1992. At that time, the Company's product range consisted of only a few varieties of sauce. Thanks to customer confidence and steady growth in demand, we were able to set a course for active development of the Company, expand the range and increase production volumes. In 2004, another production site was opened - an oil processing plant in Vasylivka (Zaporizhzhia Region). The assortment of OLIS was enriched first with sunflower oil, and later with mustard, various types of sauces and ketchups.

Today we are also actively developing the grocery business. Despite the fact that the plant in Vasylivka is currently under occupation, we have not stopped our development. In 2023, having gathered together our own experience, favorite tastes of Ukrainians and recipes that have been tested over the years, we created a trademark - National Ukrainian Traditions.

## Wide export opportunities

The products of OLIS Ltd. are well known to Ukrainians and are represented in all major retail chains in the country. In 2013, the Company entered the international market.

Today we export our products to more than 20 countries. Our partners are retailers, distribution companies and HoReCa in such countries as: Germany, France, Italy, Bulgaria, Moldova, Romania, Poland, Czech Republic, Latvia, Lithuania, Estonia, Sweden, Azerbaijan, Georgia, Armenia, Turkey, Israel USA and Canada, China, as well as African countries (Guinea, Tanzania and Rwanda). We are actively developing and improving, having started working with our company partnership becomes long-term.

# Our standards

## Safety

In 2015, we implemented and now maintain a high level of food safety management system and we are constantly improving it.

The Company is certified by an international company, a team of independent experts. The compliance with the standards is confirmed by annual audits. In 2023, the Company demonstrated excellent results in food safety, effective improvement of production processes, which is confirmed by the International Certificate ISO 22000:2018 «Food Safety Management System».

## International standards

The compliance of our production facilities with international standards is confirmed by:

- ISO 22000:2018 «Certificate of Conformity to the Food Safety Management System».
- DSTU ISO 10012 «Certificate of Recognition of Technical Competence of Production Laboratory» 2023.
- Certificate on conformity UA.10231.01367-24.
- HALAL CERTIFICATE №983/2023/11-28.

• The National Award «Country Choice of 2019» is the result of an expert evaluation by the State Statistics Service of Ukraine.

• Quality Star of 2018 - National rating of the quality of goods and services.

# We do not stop our development for a moment

For 32 years, our company has been creating quality products from natural ingredients. Even being near the battlefield, we continue to improve and develop new product lines.

In 2023, combining our own experience, favorite tastes of Ukrainians and recipes proven over the years, we created the National Ukrainian Traditions trademark. Its products are traditions with a modern flavor, natural, environmentally friendly ingredients in convenient packaging. But most importantly, they are the bearers of Ukrainian identity, which we are sure will be highly appreciated by Ukrainian consumers.

Moreover, the country, which has been holding the line not only on the fighting but also on the economic front for two years, must multiply and export its cultural and culinary traditions. To this end, we have experience in successfully promoting our products in foreign markets, primarily in Europe.

Our goal is not only to introduce the new brand to Ukrainians and Europeans, but also to promote Ukraine's European integration in a comprehensive manner.
