1121 Kainat Basmati

(Brown - Raw - Steam - Parboiled or Sella)

1509 Basmati

(Brown - Raw - Steam - Parboiled or Sella)

PROFILE

Since its establishment in 1950 Khawaja Rice Processors has strived to maintain highest levels of quality and has enjoyed exceptional relations with both its suppliers and buyers.

Thrice ranked and recognized as one of the top 10 exporters of the highest quality Basmati Rice in Pakistan, by Rice Exporters Association of Pakistan (REAP).

With over 25 million USD per year in revenue and a quality staff of over 150 employees Khawaja Rice Processors has achieved overwhelming success in both domestic and international markets, ranging from over 15 different countries across the globe.

FACILITIES

State of the art processing, par boiling, steaming and paddy drying facilities are available. Over 10 tonnes per hour rice processing can be easily achieved with the help of the latest most advanced technological setup with machinery imported from Japan, China, India and Thailand.

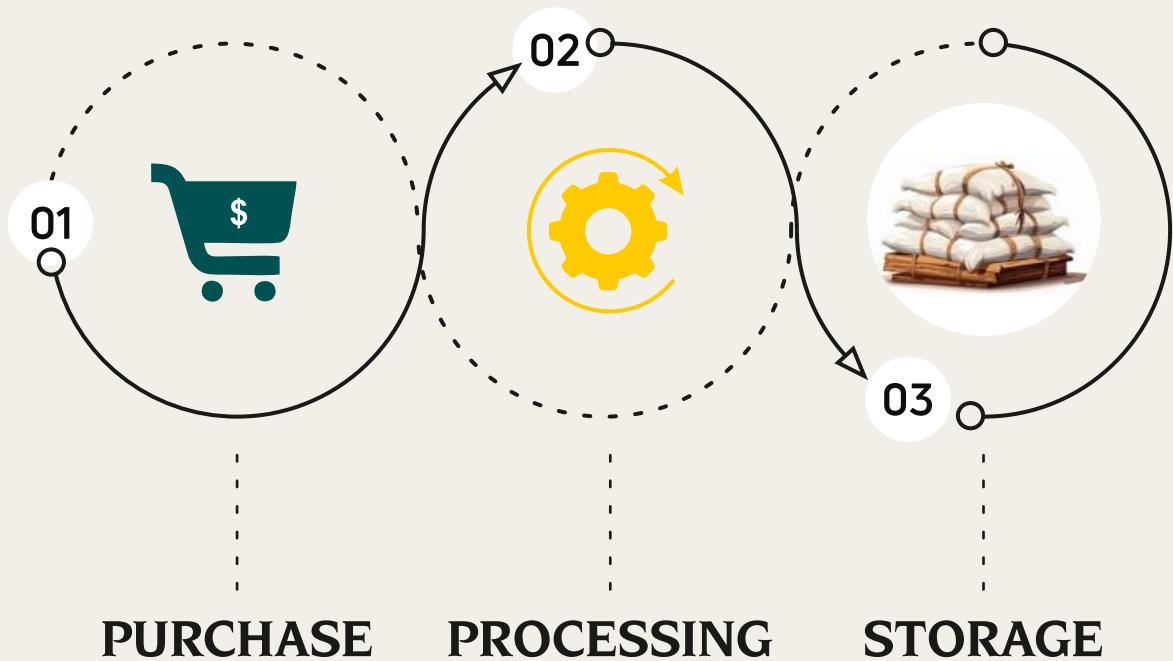

10000 M/Tons storage capacity of rice is also available with ISO 9001:2015, ISO 22000:2018 and Halal Certification. We ensure a safe and healthy environment for both our employees and our products while supplying highest quality rice and meeting any and all international standards.

AIM

Our aim is and has always been to provide the best possible product at the best possible price while also maintaining a healthy, long lasting relationship with our buyers. It would be an understatement to say that our top priority has always been to cater to and to please our customers. Furthermore, we also strive to keep growing and improving our processes, machinery and functioning to fortify our place as a leading rice export company of Pakistan one that is always a step ahead of its competition.

PROCESS

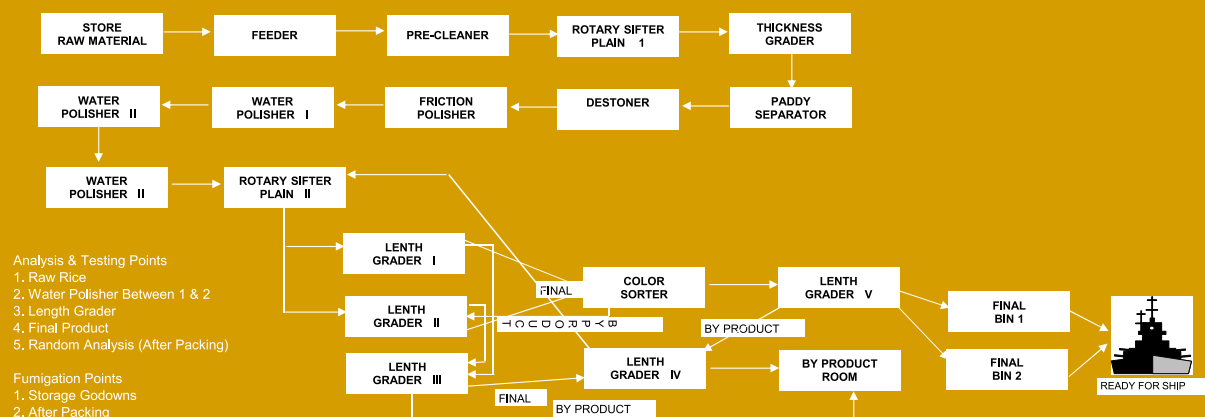

We have a state of the art lab paired with several miniature labs which are essentially there to ensure the quality and purity of raw rice before purchase. These labs include machinery from Satake comprising of an infallible rice scanner capable of detecting even the smallest of impurities. Henceforth, this guarantees that only the best batch of rice is selected for purchase.

The same level of scrutiny and delicacy is ensured in this respect as well. During the process and examination, the rice do not come in contact with any external or unprecedented sources to avoid contamination of any sort.

Once the processing is complete, the rice is then stored in an air tight, temperature controlled environment.

Storage capacity of 10000 M/Tons

KHAWAJA RICE PROCESSORS

History

Khawaja Rice Processors was conceived in 1950 by Khawaja Muhammad Afzal as a small family business. Over time, under the supervision of Khawaja Shahzad Afzal, we grew into an enterprise that operated locally and globally. This international expansion, however, was possible because we operate from the agricultural hub of Pakistan, in the heart of Punjab, surrounded by one of the most fertile lands in the world. In addition to that, we own and utilize a state of the art rice husking,

processing and packaging unit with in house Steaming and ParBoiling facility. We have a fully automated supply line with the best machinery brought in from around the world.

Together with this ultramodern machinery and with our years of experience, we have managed to supply the best quality of Basmati and non-Basmati rice in Brown, Raw, Steamed or Parboiled form throughout the world. We have supplied our products to

several countries, including but not limited to, UAE, USA, Mauritius, Sultanate of Oman, South Africa, Kenya, UK and others. On this journey, we have won 3 awards from the Rice Export Association of Pakistan for being one of the Top 10 BASMATI rice exporters in Pakistan.

📍 5 Km Narowal-Muridke Road,
Muridke Sheikhpura, Punjab
Pakistan.
