ABOUT US

The foundations of Yörsan were laid in 1964 with the establishment of Yörüklər Gida Limited Company. In 1979, Yörsan A.Ş. was established with the purchase of a dairy farm in Susurluk and the launch of the dairy products factory built in 1984. Yörsan became one of the pioneers of the sector by expanding its field of activity with Turkey's first white cheese factory established in 1984. In 2022, Yörsan joined the Matlı Group of Companies, continuing its development. Combining Yörsan's know-how that extends from tradition to the future with nearly 60 years of experience in agriculture and animal husbandry, Matlı revitalized and strengthened Yörsan. In 2023, it added Matlı's more than half a century of feeding experience to its products, which it renewed by remaining loyal to the traditional flavours of Yörsan, and brought them to its consumers.

Due to its golden supply chain, Matlı has a management system that ensures the flavour guarantee of its products from the source of the milk. As Türkiye's leading feed producer, Matlı is an expert in efficient and high quality milk production by feeding animals with the right ration. Matlı also carries out research and training activities in the fields of animal care, nutrition and health for efficient milk production within Ömer Matlı Academy since 2006. Yörson continues to lead in the production of high-quality and safe milk, having earned the 'Disease-Free Facility Certification' and the 'EU Standards Compliant Milk Production Farm' certificates for the Ömer Matlı Dairy Farm.

In 2023, Yörsan develops new products at the R&D Centre established within its structure. Matlı, which ensures the quality of animal feed from which milk is obtained, while it is still in the ground, produces corn seeds used in feeding with the cooperation it has established, and provides qualified raw materials through licensed storage activities. Thus, the high-quality milk obtained from cows fed with high-quality feed produced by Matlı itself is shaped by expert hands in Yörsan facilities with traditional Yörsan recipes and transformed into unique flavors.

Matli aims to be the first choice of consumers in meeting their protein needs with its high nutritional value milk, egg and chicken meat products produced in its companies. Yörsan has a wide range of products with nearly 200 varieties in the milk and dairy products category. Yörsan is also the first brand to offer Turkey's first creamy pan yoghurt and home-style yoghurt, which are highly appreciated by consumers. Matli will continue to deliver Yörsan products to taste lovers for those who love traditional tastes and cannot give up local flavors.

The Taste Story of Yörsan

AGRICULTURE

The flavor story of Yörsan begins in the soil, starting with the cultivation and harvest of grains used in feeding cows, the first link in the golden supply chain and the transformation into high-quality feeds.

FARM

Yörsan ensures the guarantee of its unforgettable taste at the source of milk. Yörsan's milk is obtained from carefully raised cows. The flavors that reach your table through our conscientious feeding and animal welfare practices at Ömer Matli Dairy Farm and Ömer Matli Academy farm, are obtained from the healthiest and well-cared-for cows.

PRODUCTION

The milk obtained from well-nourished cows reaches Yörsan facilities at its highest nutritional level, ensuring it arrives in its finest and healthiest form. Processed with traditional Yörsan recipes by skilled hands, it transforms into unique Yörsan milk, cheese, yogurt, butter, and many more.

R&D

Yörsan, bringing smiles to tables with delightful flavors, is always prepared for the next encounter. Engineers at Yörsan R&D Center work tirelessly to make each meeting unique. The Yörsan product family, with nearly 200 varieties, continues to strive for excellence in pursuit of this goal.

ON YOUR TABLE

Yörsan flavors arrive at tables in all their naturalness, complementing the taste of meals and accompanying moments of distinction. They transform meal times into refined occasions, whether it's breakfast, lunch, or large family gatherings, there's always a Yörsan present. It brings a sense of well-being and witnesses happy moments.
